Ämne: Kvantfysik som bekräftelse/mekanism för karismatisk och trosförkunnande teologi

Rapportdatum: 2026-07-27

Rapportnivå: 3 — skarp kritik / ärlig opponent

Om detta urval

Sex videor, samtliga byggda på samma grepp: kvantfysik åberopas som vetenskaplig bekräftelse på — eller mekanism för — karismatisk och trosförkunnande teologi. Fem av dem finns i full transkription; den sjätte (Van Koeverings konferensklipp “Sound of Heaven '09”) saknar undertexter helt och var vid hämtningen även blockerad för ljudnedladdning (YouTubes SABR-experiment), och tas därför bara med på metadatanivå.

Rapportnivån är 3: nedan agerar jag ärlig opponent till materialets påståenden och prövar dem så skoningslöst som sakligt går, utan att ta hänsyn till någon läsares egna teologiska preferenser. Det innebär att kritiken faller lika hårt på den karismatiska inramningen som på fysiken.

Sammanfattning

Varje video sammanfattas för sig; därefter en samlad syntes. Videobeskrivningarnas egna formuleringar återges som citat där de är upplysande.

1. Quantum Mechanics and the Bible (PNN/ppsimmmons, 2009, 3:58)

Tes: Bibeln kände till kvantmekaniken innan vetenskapen gjorde det. En kort apologetisk film (utdrag ur ICHTHUS-filmen "The Scientific Unknowables of the Bible").

Argumentlinjen: allt synligt är uppbyggt av osynliga kvantpartiklar → "allt som syns är gjort av sådant vi inte kan se", vilket sägs vara exakt vad Heb 11:1,3 säger. All materia beskrivs som "solidified light" (stelnat ljus), och eftersom Gud i 1 Mos 1:3 skapar ljuset före solen påstås Bibeln ha förutsett att "ingenting kan existera förrän ljus först finns". Slutkläm: hur kunde Moseboks författaren veta detta om inte ljusets och kvantmekanikens skapare uppenbarat det?

2. JoAnn McFatter — Quantum Physics and Faith (Oasis Church, 2013, 2:12:53)

De första ~50 minuterna är lovsång, kungörelser och kollektupptagning; McFatters undervisning börjar omkring 1:24.

Tes: den osynliga verkligheten är den egentliga verkligheten, och den formas av dina tankar, ord och attityder. "Newtonska" vetenskap säger att det man kan se och röra är verkligt; kvantfysiken sägs säga att det osedda är verkligt och påverkas av dig. På "subpartikelnivå" är vi "99,9 % tomrum", vilket är "energi och frekvens som går ut" och formar staden man bor i.

Den teologiska överbyggnaden är latter rain / manifest sons of God: vi är den generation som ska "gå upp och ner", translatera, bli ljus, gå in i härligheten. McFatter väver in andrahands-uppenbarelser från John Paul Jackson (numeriska ekvationer bakom varje ord i himlen), Bob Jones (ändetidsarmén i sanden), Neville Johnson (att man i millenniet "odlar" en byggnad ur ljus och frekvens enligt $E=mc^2$) och Heidi Baker. Återkommande: "trapped light", att "oskapat ljus i oss trumfar skapat ljus", att vi "inte behöver dö", och att man kan "tuna in på" en annan persons frekvens (värden säger sig ha fångat en av hennes lovsånger genom att be för henne och "tuna in på hennes frekvens").

3. Van Koevering — Entrepreneurship, Wealth and Creativity (2015, 34:59)

David Van Koevering (uppfinnare, mångårig medarbetare till synt-pionjären Bob Moog) presenterar sig som fysiker och visionär. Tes: kreativitet är inte din — den kommer helt från Helige Ande — och de "frekvenser" som bär ditt entreprenörskap, din rikedom och din kreativitet är dina att ta emot i Jesu namn.

Kärnpåståenden: supersträngarna under subatomära partiklar "är Guds röst som får materia att bli till"; "materia har minne" (din ring, ditt hus, din vindruta "minns" allt);

observatörseffekten formuleras som “what you observe, you cause to be” och kopplas till Jesu ord om berget, fikonsträdet och blicken. Ekonomiskt: “pengarna hittar visionen” — artikulera visionen så är pengarna på väg. Han avfärdar upprepat “New Age” samtidigt som han demonstrerar en Tesla-spole / plasmaapparat som han säger bär hans röst och välsignelse in i åhörarnas kroppar (“longitudinella vågor”, mätbart 30 meter bort), och avslutar med helandedeklaration och “Satan, du är avvisad”.

4. Van Koevering — Quantum Healing (Patricia King, 2015, 28:30)

Intervju i Patricia Kings program (XP Ministries). Van Koeverings vittnesbörd: hans hjärta stannade tolv gånger och han “uppstod” tolv gånger, den tolfte gången “korsade han över” till en dimension nära vår; han fick sedan “ett nytt hjärta” i ett helandemöte.

Fysikpåståenden: den osynliga världen är långt större än den synliga (ögat ser bara 400–700 nm); >90 % av kosmos massa “saknas”; och — som höjdpunkt — att man vid “den schweizisk-franska gränsen” i den stora kollideren nyligen “bevisat” att ting kan gå fortare än ljuset, alltså “hade Einstein fel”. Helandemodellen: “fel frekvens är sjukdom, rätt frekvens är hälsa”; han säljer en jordningsrem kopplad till en väggdosa som “jordar” kroppen och sägs få nervbesvär att försvinna. Programmet avslutas med kollektiv helandebön (“sträck fram din antenn”) och reklam för Phil Masons bok Quantum Glory.

5. Dr Patricia Green — Quantum Healing (2015, 18:59)

Tes: fyra ting kan skapa och förändra substans — Skriften, våra tankar, vårt talade ord och vår tro — och de kan också “skapa och förändra DNA” och nya dendritter i hjärnan.

Hon åberopar Bruce Lipton och en studie där försökspersoner sägs ha ändrat DNA-strängars form på två minuter med “fokuserade känslor”. Jesu (Yeshuas) mirakler — bespisningarna, Kana, stormen, det förbannade fikonsträdet, den blindfödde — omtolkas som “quantum healing”: han ändrade materia och DNA med tanke, ord och tro, och kunde göra det “inte för att han var Guds son” utan för att han förstod ordens och trons kraft — samma kraft vi ska utöva och göra “större verk”. Praktisk tillämpning: avvisa ärftliga “generationsförbannelser” och diagnoser mentalt och verbalt, omdirigera tankar och ord till helande, håll ut i tro tills “beviset” manifesteras.

6. Van Koevering — Sound of Heaven '09 (7:04, ej transkriberad)

Konferensklipp utan undertexter; kan inte analyseras på innehåll. Titel, talare och sammanhang (samma frekvens-/kvanttema som videorna 3–4) är det enda som säkert kan sägas.

Samlad syntes

Den gemensamma linjen är att kvantfysikens vokabulär lånas in för att ge vetenskaplig auktoritet åt två redan färdiga teologiska projekt. Det första är trosförkunnelse (word of faith): ord, tankar och tro beskrivs som en kraft som skapar och förändrar materia, DNA, hälsa och ekonomi. Det andra är NAR:s / latter rains manifest-sons-metafysik: människan ska bli ljus, bära härlighet, ta dominion och till och med undslippa döden.

Videorna delar ett återkommande knippe fysikpåståenden — observatörseffekten som medvetandets makt över materien, “99,9 % tomrum”, “all materia är stelnat ljus”, “ljus före solen”, “fortare än ljuset bevisat”, “materia har minne” — och ett gemensamt personnätverk: Patricia King/XP, John Paul Jackson, Bob Jones, Neville Johnson, Heidi Baker, Lance Wallnau, samt Phil Masons bok Quantum Glory som återkommande referens. Två av rösterna (Van Koevering, McFatter) förnekar uttryckligen “New Age” i samma andetag som de lär ut dess kärna. Flera av videorna slutar i försäljning: apparater (jordningsrem, plasmaprojektor), böcker och konferenser.

Kritisk bedömning (nivå 3)

Nedan provas materialets bärande påståenden. Där det finns en verklig kärna att ta på allvar sägs det — men slutsatsen är genomgående att fysiken används fel och att teologin den ska bära är mer besläktad med New Thought och överförverkligad eskatologi än talarna medger.

Fysiken är genomgående missförstådd

- **Observatörseffekten.** Det bärande felet i tre av videorna. I kvantmekaniken betyder “observation” en växelverkan med en mätapparat (som lämnar vilken-väg-information), inte en människas medvetna blick eller mentala etikett. Van Koeverings “kalla dem partiklar så blir de partiklar, kalla dem vågor så blir de vågor” är helt enkelt fel: interferensmönstret i dubbelspalten beror på om väginformation finns i systemet, inte på vad betraktaren tänker. Dekoherens förklarar kollapsen utan något medvetande. Det finns en genuint svår mätproblematik och seriösa tolkningsstrider — men ingen etablerad tolkning ger tanken makt att omforma yttervärlden på beställning.
- **“99,9 % tomrum”.** Populär men vilseledande. Just kvantmekaniken avskaffar bilden av atomen som mest tomrum: elektronen är inte en liten kula som kretsar i en stor tomhet, utan ett orbital/fält som fyller volymen. Och även om bilden gällde följer det inte att “tomrum = energi = frekvens som går ut och formar din stad”. Det är en kedja av glidningar, inte en slutledning.
- **“All materia är stelnat ljus.”** Falskt. Fotoner är masslösa kraftbärare; det mesta av vanlig materias massa kommer från den starka kraftens bindningsenergi (och en mindre del från Higgs-mekanismen), inte från “ljus”. Att 1 Mos 1:3 nämner ljus före solen och sedan läsa in modern elektromagnetism är anakronistisk eiseges — texten talar om Guds skapande ord, inte om partikelfysik.
- **“Fortare än ljuset — bevisat, Einstein hade fel.”** Detta är kontrollerbart och fel. Den stora hadronkollidern har inte demonstrerat överljushastighet. Det Van Koevering syftar på är sannolikt OPERA-experimentets neutrino-mätning (2011), som visade sig bero på en dåligt ansluten optisk kabel och drogs tillbaka. Hans geografi är dessutom påhittad (“450 miles under Italiens granit”). När en så lätt kontrollerbar uppgift är fel bör tilliten till resten sjunka.

- **“Supersträngar är Guds röst.”** Strängteori är obekräftad och saknar experimentellt stöd; att utnämna dess hypotetiska objekt till “Guds röst som får materia att bli till” är teologisk projektion på en spekulativ modell, inte fysik.
- **“Materia har minne / din ring spelar in allt.”** Inte fysik. Att kristaller i en telefon lagrar laddningsmönster är konstruerad teknik, inte en pankyisk inspelning av rummets händelser. “Stenarna ropar” (Luk 19) och “stenen har hört” (Jos 24:27) är poetiska respektive juridiska bilder — att göra dem till belägg för att föremål registrerar information är en kategorisammanblandning.
- **DNA ändrat av ord och känslor.** Bruce Lipton står utanför mainstream-biologin. Studien om DNA-strängar som “vrids upp på två minuter” av känslor kommer från HeartMath-kretsen (Rein/McCraty), in vitro och illa replikerad — inte etablerad genetik. Det finns inget stöd för att fokuserade tankar vänder cancer. Här blir det inte bara fel utan farligt (se nedan).

Teologiska problem

- **Trosförkunnelsens metafysik.** Ord och tankar som en skapande kraft, halvt fristående från Guds vilja, är New Thought-arvet (Kenyon → Hagin) — funktionellt detsamma som den “New Age” både Van Koevering och McFatter uttryckligen tar avstånd från. Att förneka etiketten upphäver inte släktskapet: du formar verkligheten genom din observation och din “vibration”, materia har minne, du kan tuna in på frekvenser. Det är New Thought med bibelcitat.
- **Kristologi och antropologi.** “Manifest sons of God”, “vi blir ljus”, “vi behöver inte dö”, människan som Jesu “jämlike” — detta är manifesterad-sons-/latter rain-teologi: en överförverkligad eskatologi som förnekar den kroppsliga döden och suddar ut gränsen mellan Skapare och skapelse. Green går längst: Jesus kunde ändra materia “inte för att han var Guds son” utan genom teknik vi alla kan bemästra — vilket reducerar inkarnationen till en metod.
- **Helandedeklaration och apparatförsäljning.** Jordningsremmar, Tesla-spolar/plasmaprojektorer och “quantum”-böcker säljs mot betalning. “Fel frekvens är sjukdom, rätt frekvens är hälsa” är pseudomedicin; liknelsen “får bilen slut på bensin, byt inte däck” avfärdar reell patologi. Uppmaningen att “avvisa diagnosen” och “kasta ut” sjukdomen är andligt och fysiskt vådlig — särskilt Greens råd att inte “acceptera” en läkares cancerbesked.
- **Hermeneutik.** Heb 11:1,3 (“tron är en övertygelse om det man inte ser; världen skapades genom Guds ord”) görs till ett uttalande om kvantmekanik; 1 Mos 1:3, Mark 11:23, fikonsträdet, Kana och bispisningarna görs till kvantdemonstrationer. Det är eiseges: en modern fysikvokabulär läses bakåt in i texter som handlar om förtröstan på Gud, inte om en mekanism människan hanterar.
- **Prövbarhet och ansvarighet.** Van Koeverings “dog tolv gånger, uppstod tolv gånger, fick nytt hjärta” är ett oprövbart vittnesbörd. Men de kontrollerbara påståendena (överljus, kollisionen) är fel — och andrahandsuppenbarelserna om himlen och millenniet (Jackson, Jones, Johnson) prövas aldrig mot Skriften, de staplas som auktoritet.

Vad som inte diskuteras — och den ärliga invändningen

Ingenstans skiljs metafor från mekanism: “varde ljus” som poesi kontra som elektromagnetisk ingenjörskonst. Ingen fysiker citeras korrekt; “googla det själv” står i stället för belägg. Den pastoralafaran (att avråda från diagnoser) och den ekonomiska intressekonflikten (apparat- och boksälj) berörs inte. Och New Thought-genealogin avvisas men vederläggs aldrig.

Den mest välvilliga läsningen — att detta bara är analogier, ett sätt att väcka förundran inför att skapelsen är djupare än den ser ut — faller på talarnas egna anspråk: de säger uttryckligen att detta är mätbart, bevisat och användbart, och de säljer verktyg och metoder byggda på det. Då måste det också prövas som påståenden om verkligheten, och som sådana håller de inte.

(00:00:03) and then God said let there be (00:00:06) light modern science declares that (00:00:09) Quantum particles or light particle wave (00:00:12) packets as scientists now call them form (00:00:16) atoms and atoms form molecules and (00:00:19) molecules form objects so basically all (00:00:23) things that we can see living or (00:00:26) non-living are made of atoms these atoms

(00:00:30) have Quant or subatomic properties as (00:00:33) well these Quantum properties behave in (00:00:36) ways that we have no experience of in (00:00:39) our seen world according to scientists (00:00:42) so everything that we can see is made up (00:00:46) of things that we cannot see nor do we (00:00:49) fully understand how they (00:00:52) operate but that is exactly what the

(00:00:54) Bible said 2,000 years ago from Hebrews (00:00:58) 11: 1 and 3 faith is the substance of (00:01:01) things hoped for the evidence of Things (00:01:04) Not Seen the things which are seen were (00:01:08) not made of things which are visible and (00:01:12)

again from Romans Chapter (00:01:14) 1 what may be known about God is plain (00:01:17) to them because God has made it plain to

(00:01:19) them for since the creation of the world (00:01:22) God's invisible qualities his eternal (00:01:25) power and divine nature have been (00:01:26) clearly seen being understood from what (00:01:29) has been made (00:01:30) so that men are without (00:01:33) excuse one of the fundamental rules of (00:01:35) quantum mechanics is that everything is

(00:01:37) made up from Little Bits Quantum (00:01:41) particles form atoms and atoms form (00:01:43) molecules and molecules form objects (00:01:46) living and non-living therefore material (00:01:49) objects are fundamentally made up of (00:01:52) particles but also they are made up of (00:01:55) the forces that keep those particles and (00:01:58) objects together we now know from our

(00:02:01) understanding of quantum mechanics that (00:02:03) light is the force that keeps electrons (00:02:07) tied to the nuclei of atoms and atoms (00:02:10) tied together to make molecules and then (00:02:12) finally objects so now just in the last (00:02:16) 100 years or less we realize that all (00:02:19) forms of matter are in fact solidified (00:02:24) light in Genesis in the

(00:02:27) beginning in the third verse (00:02:30) the Bible says that the first thing that (00:02:34) God made was (00:02:36) light the Bible says that God made light (00:02:39) before he made any material thing God (00:02:43) made light before he made the Sun and (00:02:45) the Moon the Bible declares for ages (00:02:48) this statement in the Bible made no

(00:02:50) sense considering what we knew about our (00:02:52) natural world how could light exist (00:02:55) before the sun existed but now through (00:02:59) quantum understanding we realize that (00:03:01) nothing can exist until light first (00:03:04) exists the Sun and every other object in (00:03:08) the universe living or non-living is (00:03:11) ultimately made up of Light how could

(00:03:14) the writer of Genesis have known such a (00:03:17) deep and mysterious truth unless the (00:03:20) creator of light and quantum mechanics (00:03:24) had revealed it to him (00:03:28) [Music]

(00:33:30) if you thought the winds that have come (00:33:34) were overwhelming
(00:33:38) wait you'll see (00:33:41) there's a whirlwind spinning around and (00:33:44)
around (00:33:45) coming down from heaven (00:33:48) there's a whirlwind spinning
around (00:34:15) whirlwind spinning around and around

(00:34:18) a whirlwind (00:34:33) touchdown in the middle of the glory the (00:34:36) four
(00:34:37) living creatures gonna touch down (00:34:41) in the middle of the glory
touchdown (00:34:45) in the middle of the glory (00:34:55) just wait and see (00:35:10)

(00:35:14) believe i'm coming (00:35:19) i'm coming to oakland (00:35:52) just wait on
(00:35:55) me don't grow weary (00:36:02) me having (00:36:06) done all stand
(00:36:09) and decree and agree (00:36:12) and believe and you

your eyes in the land of the (00:36:23) living you'll (00:36:24) see with your eyes in the land
of the (00:36:27) living (00:36:29) you will see (00:36:48) thank you

(00:37:42) holy holy holy (00:37:46) is the lord of hosts (00:38:01) is the lord (00:38:44) crying (00:38:58) crying holy lord holy holy holy (00:39:25) holy holy (00:39:39) and the angel's (00:39:54) and the angels are about

(00:40:08) and the (00:40:22) about (00:42:14) angels (00:42:25) holy lord (00:42:42) holy (00:43:24) amen (00:44:24) well amen amen (00:44:34) god is so good you just don't get tired

(00:44:37) of his presence man you just (00:44:39) love to go back in every time god is (00:44:41) good (00:44:49) just a couple of quick announcements (00:44:52) because we've gotten a lot of questions (00:44:53) and just kind of make it quick and easy (00:44:56) for everyone (00:44:56) um we generally try to hold a conference

(00:44:59) once a quarter (00:45:00) and bring different people in and so the (00:45:03) next thing we have scheduled for this (00:45:05) year (00:45:05) is patricia king in october and we'll be (00:45:08) at a hotel (00:45:09) about 10 or so minutes from this (00:45:13) area and so when it gets closer we'll

(00:45:16) just email (00:45:16) everyone and kind of give them a heads (00:45:18) up so that's kind of (00:45:20) with that and then we do meetings (00:45:23) in paseo is anyone familiar with the (00:45:25) arts (00:45:26) district of paseo how many all know god (00:45:28) wants to invade paseo

(00:45:30) and the arts right here in oklahoma city (00:45:34) so we do some meetings there roughly (00:45:38) twice a month and the next one is in (00:45:40) july (00:45:41) so we're out and about for a while and (00:45:43) then we'll (00:45:44) be having one in july is that funny (00:45:47) diane

(00:45:49) can i can i not say out and about (00:45:52) and they are usually just a friday or (00:45:54) saturday night (00:45:55) from seven until whenever and we're (00:45:59) really (00:46:00) into community so generally then we just (00:46:02) all go (00:46:03) veg out at a restaurant and

(00:46:06) see if god's glory can fall and touch (00:46:08) all the (00:46:10) people out amen um the teachings will (00:46:14) all be online (00:46:15) on youtube here in about two weeks our (00:46:18) youtube channel is overflow global (00:46:21) and uh we will email you know once (00:46:24) they're all on there and just say

(00:46:26) here's the link and here's how you get (00:46:28) there (00:46:30) i'm trying to think if there's anything (00:46:31) else anything else (00:46:41) john says yes there's something else (00:46:42) god's eternal i'm trying i think how do (00:46:44) you make that the announcement (00:46:46) so i'll give it to you and you can

(00:46:48) explain that one (00:46:49) oh thank you (00:46:52) oh man it's just a wonderful time isn't (00:46:55) it it's been great you guys are (00:46:56) wonderful thanks

so much for coming (00:46:58) we really appreciate you know you being (00:47:00) here because it's it's not about (00:47:02) you know any one person it's when we all

(00:47:04) come together and (00:47:05) together we're a habitation you know (00:47:07) we're living stones coming together and (00:47:09) worshiping the lord together you know (00:47:11) we all receive together as a corporate (00:47:13) application (00:47:15) and god wants us to do that (00:47:18) amen it's just nothing that beats it you

(00:47:21) know i just love it (00:47:23) coming together as the people of god and (00:47:24) just worshiping together and getting in (00:47:26) the presence of god and letting god do (00:47:28) what he wants to do (00:47:30) just as anything better than that you (00:47:32) know and so (00:47:34) i know a lot of people came from out of

(00:47:36) state how many of you are from out of (00:47:37) state (00:47:39) you're from out of state and you're (00:47:40) going to be in state pretty soon (00:47:42) and you're from out of state they came (00:47:44) from missouri and (00:47:46) texas indiana (00:47:50) come on

(00:47:53) arkansas and (00:47:57) then i guess the rest of you guys are (00:47:58) homegrown (00:48:01) i'm actually homegrown this is where i (00:48:03) came from so originally so (00:48:06) but um you know god is good god's good (00:48:10) and so um i was seeking the lord you (00:48:13) know we want to bless our speakers we

(00:48:14) will bless everybody who came (00:48:16) and um i was thinking you know offerings (00:48:19) taking up (00:48:19) offerings i'm i'm i'm really not the (00:48:21) kind of guy that likes to ring you (00:48:23) around the neck and say hey give (00:48:25) you know or come up with a bunch of (00:48:27) different sermons to try to convince you

(00:48:29) that it's good to give (00:48:30) you know we should just know it you know (00:48:32) what i mean it's not (00:48:33) that kind of thing and you guys have (00:48:35) been generous you've been great (00:48:36) uh but i saw the lord just asking god (00:48:39) yeah i just said well how (00:48:40) what do you want me to say um we still

(00:48:42) have some needs (00:48:44) that we uh feel we need to meet you know (00:48:46) and (00:48:48) so he said well you have not because you (00:48:50) ask not you just need to ask for help (00:48:53) and so i'm saying you know would you (00:48:55) guys help us (00:48:56) you know we were sent here

(00:49:00) you know by god and i hope you guys (00:49:02) enjoy the atmosphere i hope you (00:49:03) appreciate (00:49:04) you know what's going on here and uh the (00:49:07) flavor that we bring (00:49:09) is just our dna this is just who we are (00:49:12) you know uh some people like it some (00:49:14) people don't you know and and that's

(00:49:16) fine (00:49:17) but if you guys appreciate it we just (00:49:19) would ask that you would sew into it (00:49:20) because we plan on doing a whole lot (00:49:22) more of

this (00:49:23) you know and we plan on the glory (00:49:25) getting a whole lot thicker (00:49:27) you know only gets better from here you

(00:49:29) know this is just the launching point (00:49:32) you know we're going to go glory to (00:49:33) glory (00:49:35) you know and so i would just ask you (00:49:36) guys to sow in to the glory by faith you (00:49:39) know and just (00:49:40) if you guys just dig a little bit deep (00:49:42) tonight we just ask for your help

(00:49:45) you know and you would uh (00:49:48) make out the checks to overflow global (00:49:51) overflow or overflow global (00:49:53) we have envelopes where you can give in (00:49:56) different ways you know you know all the (00:49:58) ways to give and (00:49:59) i don't need to tell you you know so but (00:50:01) we just thank you so much for supporting

(00:50:03) us we thank you so much for being here (00:50:05) just being here (00:50:06) you guys are great support we love that (00:50:08) i mean it's nothing with (00:50:09) i mean if you guys don't show up i mean (00:50:11) what's the point if god doesn't show up (00:50:13) there's no point (00:50:14) okay and it's amazing how many churches

(00:50:17) get packed out (00:50:18) and god isn't even there you know so i (00:50:21) mean come on guys god's here (00:50:22) let's let's let's let's get into this (00:50:26) thing you know (00:50:27) and see god do some great things so (00:50:29) thanks so much (00:50:32) so father we just thank you lord for

(00:50:35) um you see our heart you see our needs (00:50:38) lord you see what we (00:50:40) have need of lord in our lives (00:50:41) financially (00:50:43) physically in every way spirit's own (00:50:45) body lord jesus and we just ask that you (00:50:47) would multiply it back to your people (00:50:50) in ways that they can't imagine father

(00:50:52) that you would really (00:50:54) really do a miraculous thing in all of (00:50:56) our lives (00:50:58) jesus as we give in to your presence and (00:51:00) give in to your glory (00:51:01) we thank you so much for your love for (00:51:04) us in jesus name amen (00:51:07) well we're so delighted to have this

(00:51:10) lady here (00:51:11) we are honored that she would (00:51:15) come to oklahoma city we've had joanne (00:51:18) this is the third time (00:51:19) we've had her in a conference the first (00:51:22) time i met joanne (00:51:23) i was playing electric guitar when i (00:51:26) actually met her and it was at a ryan

(00:51:28) wyatt conference how many of you know (00:51:29) who ryan white is (00:51:30) he is one of the guys that preach at (00:51:32) lakeland revival you know back then and (00:51:35) now he has a church in congregation he's (00:51:36) got this fused church (00:51:38) which is the name of it now and his (00:51:40) worship leader vince gibson would have

(00:51:42) me come in and play electric guitar and (00:51:44) get on my les paul and just (00:51:45) rock it out the best i could you know in (00:51:47) the holy ghost and try to (00:51:49) do with some anointing you know but um (00:51:53) that's where i met joanne at that one (00:51:55) time and then another time with jeff (00:51:56) jansen up in kansas

(00:51:58) we met a drummer and but anyway we (00:52:01) connected there and she said hey i like (00:52:03) that that's (00:52:04) good you know and said well we love your (00:52:06) stuff you know obviously (00:52:07) and so uh it's been a pleasure knowing (00:52:10) joanne (00:52:11) and she's such a woman of god and she's

(00:52:15) out of the box which is what i'm (00:52:19) like you know but i feel like she's even (00:52:20) more out of the box (00:52:22) but she should be because she's a (00:52:23) pioneer you know (00:52:25) she pioneered ahead of me you know and i (00:52:27) used to soak with her music (00:52:29) you know magnificent obsession how many

(00:52:31) of you have that one (00:52:33) i mean that was just intimacy just the (00:52:36) intimate (00:52:37) that that would be the mildest cd that (00:52:40) she has (00:52:41) his magnificent obsession it's just (00:52:43) bridal (00:52:44) worship you know super intimate keyboard

(00:52:47) stuff (00:52:48) and maybe some other bells and whistles (00:52:50) and then she did in the beginning (00:52:56) you know and the noises and she been (00:52:59) around kevin prosh or something and he (00:53:00) also (00:53:01) did some synergy here i don't know what (00:53:02) it was but up in kansas city things were

(00:53:05) breaking out in the prophetic i think (00:53:06) she got a little bit of that (00:53:09) man when the prophetic explosion (00:53:11) happened in the 90s (00:53:12) how many of you know about that you had (00:53:14) paul kane bob jones (00:53:17) uh james gall john paul jackson (00:53:21) all of them were there you know and she

(00:53:23) was there right in the midst of it and i (00:53:24) remember seeing videos of you (00:53:26) and all you had was the mic at the time (00:53:28) you're just kind of going at it (00:53:30) going as prophetic you know so i'm just (00:53:32) running on but we're just (00:53:33) we love you we love you and we're so (00:53:36) glad to have you

(00:53:38) it means everything and (00:53:41) it looks like she's got some goodies to (00:53:43) give tonight (00:53:44) so uh or maybe she's just just gonna (00:53:47) show you she may not give them to you at (00:53:48) all (00:53:51) you know what guys so we are so blessed (00:53:52) because we get to know joanne personally

(00:53:54) but (00:53:54) she recently got (00:53:57) remarried and uh she has her own story (00:54:00) and i'm not going to get into that but (00:54:01) the deal is (00:54:03) she needs to take some time off the road (00:54:06) to just connect at home and connect with (00:54:09) all that god is

(00:54:10) exploding out in yuba city so can we (00:54:13) just pray (00:54:13) that by god's grace and favor she gets (00:54:16) everything she needs (00:54:18) and all the open doors so she has a (00:54:20) chance (00:54:21) to really plant and help the foundation (00:54:23) of what's going on out there

(00:54:24) amen so you guys all stretch your hand (00:54:28) lord we just thank you for the wonderful (00:54:29) pioneer (00:54:32) oh god just an awesome awesome pioneer (00:54:35) in your presence and so so many facets (00:54:38) that people (00:54:39) have yet to even grasp and lord i just (00:54:43) for your grace and your favor to get

(00:54:46) her the doors that she needs open (00:54:50) got every piece of provision every (00:54:53) everything god just explosion of of cd (00:54:57) sales (00:54:57) explosion of of giving and partners and (00:55:01) and just an abundance (00:55:04) yeah and total inheritance (00:55:08) so that she can can do what god has

(00:55:11) called her to do in yuba city amen (00:55:14) amen thank you you need a break (00:55:18) thanks (00:55:22) well it's good to be in oklahoma city (00:55:28) very good one of my favorite people (00:55:31) on the planet earth lives here sandy (00:55:35) springer (00:55:36) so i'm always glad to come to oklahoma

(00:55:39) city and see my girl (00:55:42) awesome love you too (00:55:46) so anyway i i it's been a while since (00:55:49) i've been here (00:55:50) uh maybe three years was that when we (00:55:51) did that thing back (00:55:54) a while that yeah you guys weren't here (00:55:56) sandy was

(00:55:57) part of that they planned uh (00:56:00) anyway patricia and katie souza and (00:56:02) there was such a outbreak of miracles (00:56:05) at that meeting it was awesome some (00:56:07) pretty intense miracles that were going (00:56:09) on (00:56:09) but i just think it was a token of (00:56:12) things to come

(00:56:14) the presence of god that's coming here (00:56:17) um in particular this building (00:56:20) you know there are no coincidences with (00:56:24) and so john and brandy you know (00:56:27) the lord moved them here they're all (00:56:29) about the presence of god (00:56:30) it's a sign and a wonder and a and a (00:56:34) symbol you know and not even and it was

(00:56:37) funny because (00:56:38) when i was singing uh oklahoma (00:56:42) and then i you know i was hearing the (00:56:43) home of oklahoma (00:56:45) and god's making oklahoma his home (00:56:49) uh uh i would because i was getting that (00:56:51) out of the name of it (00:56:52) and then even with john and brandy john

(00:56:55) was (00:56:56) raised here he's come back home (00:56:59) and his ministry has been uh (00:57:02) for so long it was in his presence (00:57:06) yeah so anyway they're all about the (00:57:08) presence of god and he's coming home (00:57:11) with that ministry and there's just so (00:57:13) many little details that are

(00:57:16) people don't know behind the scenes that (00:57:17) are happening with us and (00:57:19) uh and then the building you know that (00:57:22) you guys so generously (00:57:24) uh allowed to be used and that's not (00:57:27) even a coincidence that's not a mistake (00:57:29) that's (00:57:29) uh your generosity which is awesome but

(00:57:33) at the same time god designs all those (00:57:35) things i think it's a setup (00:57:37) it's an ambush is what it is so (00:57:40) i really think you know it there's (00:57:42) different spots in this city that (00:57:44) of course the burn has been here and (00:57:47) just been fanning the flames and all the (00:57:49) different ones that have

(00:57:50) been here for so long and marty and that (00:57:53) group which i just (00:57:54) absolutely love that guy just about (00:57:57) just simply about kingdom that's his (00:57:59) whole heart yeah you're (00:58:00) part of that and um anyway (00:58:03) so god looks down at that and that (00:58:06) catches his eye

(00:58:09) i mean you see that all through (00:58:10) scripture it's the (00:58:12) simple it's the that's his pattern i (00:58:15) mean we have to look at scripture and (00:58:17) see what the pattern is (00:58:18) that he uses he uses simple devotion (00:58:22) people who are sold out to him they're (00:58:24) just after his kingdom

(00:58:26) they're not after building their own (00:58:27) kingdom they're just as happy (00:58:29) if he explodes down the road as they are (00:58:32) if it's (00:58:33) at their church and they'll get up under (00:58:35) it and (00:58:36) that's what god's looking for if he can (00:58:38) find that

(00:58:39) he's happy to come if he can find that (00:58:43) i remember years ago when i uh we were (00:58:46) in chicago at a church (00:58:47) and i was doing a conference with robert (00:58:50) stearns (00:58:52) and we were singing and all of a sudden (00:58:55) chuck pierce was there he was on the (00:58:56) front row and all of a sudden

(00:58:58) uh i heard like gasping and so i opened (00:59:01) my eyes and (00:59:02) it was literally snowing gold (00:59:06) on the stage this is years ago when (00:59:09) the gold thing wasn't happening all that (00:59:11) much but (00:59:12) literally snowing gold on the stage (00:59:15) and i have to admit

(00:59:19) my first thought was i can't believe (00:59:21) these people are this hokey (00:59:23) that was my thought because we were in a (00:59:27) stage like this but the (00:59:28) sidewalls were straight and there were (00:59:31) big vents (00:59:32) along the top of each side wall and i (00:59:35) that was my first thought the carnal

(00:59:37) flesh thought that came to me (00:59:40) as an immediate gut response to that was (00:59:43) they're blowing glitter (00:59:44) out of the out of the fans you know so (00:59:47) that was my (00:59:48) first reaction to it i'm just thinking (00:59:51) that was the word i can't believe (00:59:52) there's this hokey

(00:59:54) so and i look up over you know expecting (00:59:57) to see the (00:59:58) glitter blowing out of the there was (01:00:00) nothing there was not even any (01:00:02) movement by those uh whatever you call (01:00:05) them vince (01:00:07) and then i realized it was coming down (01:00:09) and it was coming

(01:00:10) up at the same time and it was like snow (01:00:14) and so i closed my eyes and i was i just (01:00:17) thought well (01:00:18) what's this about are we supposed to pay (01:00:20) any attention to this or is this just a (01:00:22) fun thing for god or what and (01:00:24) just kind of leaning into it and and i (01:00:26) noticed the atmosphere

(01:00:28) was very very thick it was actually (01:00:31) sticky up there on the stage and it was (01:00:34) kind of covering the first couple rows (01:00:36) and um people were getting tape and they (01:00:39) were going around (01:00:40) you know going like this on everything (01:00:42) wanting to take some of it home and (01:00:44) it was all over my head on a black

(01:00:46) outfit it was all over my clothes (01:00:48) but um i asked oh and it was (01:00:52) intoxicating (01:00:53) it was very intel because i was kind of (01:00:56) just trying to press into the spirit (01:00:58) and it was sticky and it was (01:01:00) intoxicating and (01:01:02) the guy uh they have it on film um

(01:01:05) oh jim oh what's his name (01:01:09) jim who used to video all kinds of stuff (01:01:13) oughts is that his last name well anyway (01:01:15) it's somebody's got on video (01:01:17) and you could so they you know (01:01:19) afterwards wanted me to come look at it (01:01:21) i don't know how i was standing up (01:01:23) because i was i was weaving like

(01:01:25) big time back and forth just in the (01:01:28) glory it was (01:01:30) the atmosphere of the glory and the (01:01:32) reason i bring it up is i (01:01:34) asked chuck because he was on the first (01:01:37) row i said (01:01:38) when did this start you know in the (01:01:40) worship and he said

(01:01:42) it was when the prophetic song came (01:01:46) brothers the commanded blessing when (01:01:49) brothers dwell (01:01:50) in unity and that's when it started (01:01:55) and he said uh i will come (01:01:58) and there in the song was saying the (01:02:00) scepter is extended (01:02:02) actually the song was the scepter is

(01:02:05) extended (01:02:06) to any city that will come together in (01:02:09) unity (01:02:10) and i will come (01:02:14) biggest hurdle biggest hurdle biggest (01:02:17) mountain (01:02:18) that we need to just begin to release (01:02:20) grace

(01:02:21) grace grace to that mountain and bobby (01:02:24) was talking about that when he was here (01:02:26) of the unity and being able to just we (01:02:30) can agree on jesus christ (01:02:33) that's all we have to agree on all the (01:02:35) little things get sorted out anyway all (01:02:37) of our (01:02:38) big thoughts on theology and doctrine

(01:02:41) you know (01:02:42) to be honest if we could read scripture (01:02:46) in the original language we'd be shocked (01:02:49) at parts that were missing because of (01:02:52) the fullness of the hebrew and the greek (01:02:54) language it's a multi-dimensional (01:02:56) languages and we have this flat line (01:02:59) two-dimensional

(01:03:01) um english language that it gets (01:03:03) interpreted in (01:03:04) and we lose the fullness of the meaning (01:03:07) and then (01:03:07) we anyway i'm not going to go there (01:03:09) because it's (01:03:10) i don't wanna it's just true (01:03:14) and so anyway um god

(01:03:17) is renewing that and and we can get that (01:03:20) fullness if we'll take the time and the (01:03:22) word like (01:03:23) like bobby was talking about take the (01:03:25) time in the word (01:03:27) take the time every morning i he's got (01:03:30) me taking communion (01:03:31) every morning i've been doing that for a

(01:03:33) long time eat of me (01:03:35) drink of me eat of me drink of me (01:03:38) eat of me drink of me do this in (01:03:40) remembrance of me (01:03:42) it's all about the unity read it in john (01:03:44) john 17 (01:03:45) john 16. it's about unity with him (01:03:48) the only way that happens is

(01:03:51) come and sit a while you know come and (01:03:55) sit a while (01:03:56) and you know julie do you know julie (01:03:57) meyer some of you know julie meyer (01:04:00) she's had amazing encounters with the (01:04:02) lord and (01:04:03) she's calling them dreams i said julie (01:04:06) they're encounters just get over it it's

(01:04:08) they're not dreams you're there you're (01:04:10) like somewhere else with jesus and (01:04:12) you know she's had many uh dreams where (01:04:15) she's in the (01:04:16) counsel room in heaven and things like (01:04:19) that but god's just (01:04:20) landed on her with that stuff and (01:04:24) she's got a book that she's written

(01:04:25) where she's put a lot of those (01:04:26) encounters in but one of my favorite (01:04:28) ones was (01:04:29) again we were at a robert stearns (01:04:30) conference it was years ago and (01:04:32) uh she i was in the hotel room next to (01:04:36) her (01:04:36) but jesus came to her hotel room

(01:04:41) i'm so happy i'm so happy for her (01:04:44) because i love julie (01:04:47) and anyway he came to her room and (01:04:49) actually an angel was standing by her (01:04:51) bed (01:04:51) and he woke her up and (01:04:56) she felt that and then she sat up and he (01:04:59) pointed

(01:04:59) over to the corner of the room and there (01:05:01) jesus was sitting at the table (01:05:04) and he had a huge big brown leather book (01:05:08) like ancient he loved (01:05:11) this book she said because she because (01:05:12) that was that night and she was telling (01:05:14) me the next morning (01:05:15) and she said he looked all kind of vogue

(01:05:17) you know he had the (01:05:19) the beard that they just kind of had the (01:05:20) little bit of beard to be (01:05:22) gg kind of stuff i said well julie (01:05:25) that's because he came as the lover he (01:05:27) didn't (01:05:27) he was coming as the bridegroom to you (01:05:29) he wasn't coming as the king he wasn't

(01:05:31) coming as (01:05:32) you know he was coming as the bridegroom (01:05:34) to you and she goes oh yeah (01:05:36) because he what he was saying was he was (01:05:39) just running his hand around the rim (01:05:42) of the book like how precious this was (01:05:44) to him (01:05:45) and what he said to her was come sit a

(01:05:48) while (01:05:49) come sit a while and she went over and (01:05:52) she sat at the other chair at the table (01:05:54) and he was just she was just looking in (01:05:56) his eyes and she you know it's just (01:05:58) like almost getting sucked into his eyes (01:06:00) and he was just saying come sit a while (01:06:04) if you'll just sit a while

(01:06:07) i'll open to you the mysteries and so he (01:06:10) opened the page of the big old ancient (01:06:14) leather brown (01:06:15) book and he um you know started (01:06:19) she she has in her book you know some of (01:06:21) the things that she saw there but it had (01:06:24) uh talking about things that were (01:06:27) even before the beginning you know and

(01:06:29) think just mysteries and (01:06:31) certain scriptures and that he was going (01:06:34) to (01:06:34) open up and but it was an invitation to (01:06:37) everybody come sit a while (01:06:42) if we would just do that simple thing (01:06:46) and that's the hardest thing it seems (01:06:48) like for most of us

(01:06:50) in the busyness of our life in the (01:06:52) demands of the everyday (01:06:54) just to mark out at least (01:06:59) an hour in the morning i mean (01:07:02) if you just think about tithing your day (01:07:04) to him that's two hours and 40 minutes (01:07:08) just making him the priority (01:07:12) because if we don't what do we know

(01:07:16) you know my banner that flies over me (01:07:20) over the last eight years is all i know (01:07:23) is i don't know that's where i'm at (01:07:28) all i know is i don't know and (01:07:31) if i think i know you know i'm (01:07:34) laying it out another time for another (01:07:38) extraction of what i think i know that i (01:07:40) don't really know

(01:07:41) you know and him pulling out all the (01:07:43) little entanglements because (01:07:46) he wants us to know him you know and (01:07:50) and that's a theme that (01:07:53) you know even in the song coming out of (01:07:56) just come and (01:08:00) and make him the priority you know it's (01:08:03) all through scripture if we will make

(01:08:06) him the (01:08:07) priority if we will make his kingdom and (01:08:10) the desire of his heart (01:08:11) first priority he takes care of us (01:08:15) now our goofy western mentality of him (01:08:19) taking care of us (01:08:20) is we've got house insurance we've got (01:08:22) car insurance we've got

(01:08:24) two cars we've got the boat we've got (01:08:27) the (01:08:27) you know the nice hat you know all these (01:08:29) things that we think are necessities (01:08:31) i say to everybody go visit a third (01:08:34) world country (01:08:36) once a year go visit a third world (01:08:38) country

(01:08:39) to get things in perspective i remember (01:08:42) the first time i went (01:08:43) to uh india and i was a floral designer (01:08:46) back then i did that for a living for (01:08:48) about 20 years and (01:08:50) i went in november i came back the end (01:08:53) of november (01:08:54) and i was undone i didn't know what to

(01:08:56) do with what i saw (01:08:58) and comparing what they had to what i (01:09:01) had and (01:09:02) my two days after i was back i had to (01:09:05) decorate a (01:09:06) big realtors house in this kansas city (01:09:11) had before i left i had spent thousands (01:09:13) and thousands and thousands of dollars

(01:09:16) their decor their money that we spent (01:09:18) but uh which was quite fun actually but (01:09:20) anyway to decorate their house you know (01:09:23) but i so i'm i was so glad they weren't (01:09:26) home (01:09:26) because the tree was so big it took me a (01:09:28) full day to decorate the tree (01:09:30) and i had to be up on tall ladders and

(01:09:32) the whole thing and um and (01:09:34) now these people are christians and (01:09:35) these people are awesome people (01:09:37) these people give as much as anybody (01:09:41) that i know (01:09:42) you know they always giving but they had (01:09:43) to decorate their house for all the (01:09:45) realtors in the city to come and all the

(01:09:47) christmas parties (01:09:48) so i'm up on ladders and i'm hammering (01:09:51) things (01:09:52) into the banisters and the walls and the (01:09:54) stuff and i'm just sobbing i can't even (01:09:57) i keep hitting my thumb because i can't (01:09:59) even see (01:10:00) where to hit the hammer because i'm just

(01:10:02) sobbing god what (01:10:04) what what we're not even asking the (01:10:06) right questions (01:10:09) we're not even asking the right (01:10:10) questions (01:10:12) to find out what his heart is and i'm (01:10:15) not saying it's not good to prosper and (01:10:17) you know all of that i don't know where

(01:10:19) the balance is to that (01:10:21) all i'm saying is let's ask the (01:10:24) of god what is it that you want and and (01:10:27) what is important (01:10:28) and and what he adds to us he adds to us (01:10:31) you know that's awesome (01:10:33) so anyway that's not what i wanted to (01:10:35) talk about but that

(01:10:36) you know i just it's just kind of (01:10:38) flowing out of (01:10:39) even uh some of what was in worship and (01:10:43) and um this invitation from him (01:10:48) to

come and sit a while (01:10:52) and we all know it and we've heard it (01:10:53) over and over and over but we're not (01:10:55) doing it or things would be different

(01:10:58) they would be different because the (01:11:01) invitation for us (01:11:02) of the christ in me and the oneness (01:11:06) is real it's (01:11:09) real and what he's going to have us walk (01:11:12) in (01:11:13) that's coming and i'm going to talk a (01:11:14) little bit about that what he's going to

(01:11:16) have us come and walk in (01:11:18) in this hour is beyond anything (01:11:21) you've ever dreamed of we have no idea (01:11:25) what the big big picture is and i (01:11:28) guess i'm just going to talk a little (01:11:29) bit about that um (01:11:31) i did they've closed the bookstore but i (01:11:34) i

(01:11:34) dug some things out because i wanted to (01:11:36) give some stuff away because (01:11:38) i like to give stuff away (01:11:41) this is out of the blue which is a (01:11:42) little bit different (01:11:44) it's a has a bit of a jazz feel (01:11:48) which is which is a (01:11:53) uh steve swanson and i got together and

(01:11:55) in about three days we'd written (01:11:57) uh most of these songs um well one song (01:12:01) i had already written called broken (01:12:02) heart and that was from my divorce (01:12:05) and so it's you know kind of a sad song (01:12:08) one of those you want to play backwards (01:12:09) to get everything back but (01:12:13) but you know what it is it's a it is a

(01:12:16) sad song it's a reality song (01:12:18) of when the depths have been broken (01:12:22) in you and what are you gonna do so that (01:12:26) song is there and then it moves into (01:12:28) the section of butt god you know (01:12:32) because he can take the deepest to the (01:12:34) deepest of (01:12:35) pain and despair and loss and and the

(01:12:38) butt god makes it (01:12:39) all alive again and a lot of very (01:12:44) love songs with the lord on that one (01:12:48) somebody was telling me how can i count (01:12:50) the ways who's that that was telling me (01:12:52) they (01:12:53) listened to that every night huh (01:12:56) yeah there's a song on there how can i

(01:12:59) how yeah how do i love you let me count (01:13:02) the ways (01:13:03) she said she goes to sleep to that every (01:13:05) night (01:13:06) and this is raging beauty (01:13:10) again throne room songs i call them (01:13:13) and intimacy songs the last song on this (01:13:16) raging beauty

(01:13:17) is one that came in the studio and was (01:13:20) such an experience (01:13:22) of intimacy with the lord all i can say (01:13:24) is if you listen to that song (01:13:26) it's best to listen to it with laying on (01:13:29) your bed the lights out or laying on the (01:13:30) couch (01:13:31) lights out and candles lit

(01:13:35) that's because it's just talking about (01:13:37) the beauty of who he is (01:13:40) yeah you're welcome and um (01:13:43) then cloud by day fire by night this was

(01:13:47) live worship we did with um keith and (01:13:50) santa luca (01:13:51) and the whole cloud by day fire by night (01:13:53) was coming in the song tonight so i

(01:13:55) wanted to give those away too (01:13:57) who um (01:14:00) is anybody part of a uh like a worship (01:14:03) intercessory group (01:14:05) that they're doing um (01:14:10) because this kind of has to do with that (01:14:13) well the cloud by day the fire oh you (01:14:16) have that one

(01:14:16) okay well thank you for saying that (01:14:20) you got okay um (01:14:24) just in the scripture where it talks (01:14:26) about the oops sorry (01:14:27) the cloud by day the fire by night when (01:14:30) god led them through the wilderness (01:14:32) you know and he did it by a cloud by day (01:14:34) and a fire by night and it was a

(01:14:35) protection and a covering (01:14:37) but then it goes on to talk about the (01:14:38) canopy of glory (01:14:41) that was stretched out over them that's (01:14:43) what's coming (01:14:44) that canopy of glory and that resting (01:14:46) place in the different (01:14:48) cities that god's going to set up

(01:14:51) i think rick joyner talks about them (01:14:53) like rescue (01:14:54) cities of refuge (01:14:58) yeah and (01:15:02) i've seen them as as lights (01:15:05) because i i see the light that's going (01:15:07) out (01:15:09) you know just all across the region it's

(01:15:10) not really (01:15:12) as much about cities as it is regions (01:15:14) that i've seen (01:15:15) and then uh like that's why i moved to (01:15:18) yuba city i just moved there about a (01:15:20) year ago (01:15:20) and i'd been going there for a few years (01:15:22) and doing worship stuff and i

(01:15:24) saw um i saw the light i just started (01:15:27) singing about it and (01:15:28) one of the worship sessions it was going (01:15:31) out all over the region (01:15:33) but in the middle there was a bright (01:15:36) light that had blue on the edges of it (01:15:39) and it was shooting straight up into (01:15:41) heaven and i knew

(01:15:43) that was a light that if anybody was (01:15:45) anywhere (01:15:46) in the region they could look and see (01:15:49) that light (01:15:50) and it would always be there and i knew (01:15:52) the core of it was (01:15:54) worship and intercession that was going (01:15:56) on 24 hours

(01:15:58) in the region and that was what (01:16:00) sustained (01:16:01) an open heaven basically and it was just (01:16:05) anybody that looked in that direction (01:16:07) would see that (01:16:08) not the one that went out across (01:16:11) vertically but the (01:16:13) no the horizontal one they didn't see

(01:16:15) but the vertical one they did (01:16:16) so it was just that open heaven and um (01:16:19) that was one of the things that drew me (01:16:20) there the lord was showing me i was to (01:16:22) be a part of that (01:16:24) in yuba city and what's coming

(01:16:27) uh and then there's just been several (01:16:31) words about that and then terry bennett

(01:16:33) came (01:16:34) to the city and said god was going to (01:16:36) set it up (01:16:37) with as a place of his abiding presence (01:16:40) but first comes (01:16:44) the presence of the fear of the lord (01:16:47) that's the first phase that's coming (01:16:50) which is a good thing

(01:16:53) it's a good thing because we all need (01:16:55) that we all need as (01:16:57) you know it's just getting rid of the (01:17:00) things and (01:17:01) in that place in the the (01:17:04) setting down of the fear of the lord his (01:17:07) presence in that way (01:17:08) just it's not like it's a convicting

(01:17:13) thing of this is evil in you it's more (01:17:16) of a (01:17:18) let me take that out you know and you're (01:17:21) in that place of uh it doesn't feel (01:17:23) quite that gentle (01:17:24) but that's what's behind it is his (01:17:26) jealousy (01:17:28) is to pull and extract those things out

(01:17:30) that stay in the way of us (01:17:32) having oneness with him like bobby was (01:17:34) saying it's our sin (01:17:36) that keeps us from that ability of that (01:17:39) oneness and we need help (01:17:41) and he's willing to help us if we if we (01:17:43) really want to walk into that (01:17:46) so for me i was

(01:17:49) what 20 years in kansas city 18 years (01:17:52) with (01:17:52) with mike bickle there at the church we (01:17:56) had a church there (01:17:57) and then it turned into the ihop 24 7. (01:18:01) and then i was here there the first two (01:18:02) years of that i i thought i was going to (01:18:04) stay there i was shocked

(01:18:06) when god moved me gave me a dream showed (01:18:09) plugged me direct into heaven and said i (01:18:12) unplugged from that and i i was shocked (01:18:14) because i just always thought i'd be (01:18:16) that's why i stayed 18 years that the (01:18:18) church was for oh the day when we were (01:18:20) 24 7 (01:18:22) worship and intercession but mike and i

(01:18:25) would talk about that a lot (01:18:26) and it was kind of like and no church (01:18:29) administration (01:18:30) and no pastoring and just worship and (01:18:32) intercession and (01:18:34) we were talking a few months ago and i (01:18:36) said so how's that working for you (01:18:39) he said i've gotten more meetings and

(01:18:42) more administration (01:18:43) than i ever had you know when we were at (01:18:46) church it was like (01:18:47) oh sorry about that (01:18:50) i don't um (01:18:54) but anyway um you know it's just a (01:18:56) beautiful thing of (01:18:58) of what that has sparked in a lot of

(01:19:00) regions and they're all different but (01:19:01) that's definitely part of what god's (01:19:04) doing (01:19:04) but i think the most important thing is (01:19:08) for

(01:19:08) us to do this individually and one of (01:19:11) the things that he showed me that he's (01:19:13) centering around

(01:19:14) the next move around is revelation of (01:19:17) the cross (01:19:19) revelation of just exactly (01:19:22) what happened at the cross and the (01:19:26) shedding of jesus blood (01:19:27) and the resurrection power that we're (01:19:29) supposed to be living in (01:19:31) you know there something's wrong we got

(01:19:34) you know we talk about the elephant in (01:19:35) the room man (01:19:36) something's wrong because what it's (01:19:39) described in scripture that we should be (01:19:41) walking in we're not (01:19:43) so how bad do we want that (01:19:47) what are we willing to do how (01:19:50) much are we willing to prostrate

(01:19:53) ourselves if (01:19:54) you know whatever before the lord and (01:19:56) say (01:19:59) thanks for the angels thanks for the (01:20:01) gold thanks for the gems but (01:20:04) we're not going up without your presence (01:20:07) i'm not even (01:20:08) leaving this place until you come with

(01:20:12) just like mooses said you know we don't (01:20:16) want to go (01:20:17) i don't want to do anything else without (01:20:20) the manifestation of your presence (01:20:23) i'm tired of it i'm tired of man's (01:20:26) thoughts i'm tired of it (01:20:27) you know and i really have prayed over (01:20:29) the last years god

(01:20:31) i mean i respect people i respect the (01:20:34) authority (01:20:35) where i am i respect the authority of (01:20:36) the house wherever i (01:20:38) am you know i believe in that but i want (01:20:42) god's thoughts you know i want to be (01:20:45) tracking (01:20:46) with his thoughts on an issue or on a

(01:20:49) subject or just on (01:20:51) life i want to be living out of that (01:20:53) flow (01:20:54) and so uh if we are doing that (01:20:57) then we're living like jesus (01:21:00) and yea even more because that's what (01:21:03) scripture tells us (01:21:05) we're going to do what he did and even

(01:21:08) more (01:21:08) and they say if they did everything that (01:21:11) if they wrote down everything that he (01:21:12) did (01:21:13) there wouldn't be enough books to hold (01:21:16) it all (01:21:17) so what's that you know so we get kind (01:21:21) of goofed up about something we've never

(01:21:22) seen before (01:21:25) it's like okay um there's so much (01:21:29) that wasn't written down that jesus did (01:21:33) you know and and it's just you know yeah (01:21:35) we have to test the spirits i'm all (01:21:37) all for that we need to test the spirits (01:21:39) and when things are happening and things (01:21:40) come

(01:21:41) but there's so much that he wants to do (01:21:43) that we've not even (01:21:45) touched and this is it this is a (01:21:47) generation this is the (01:21:49) time

that it's coming and we have to (01:21:53) come into agreement with that and i know (01:21:55) i'm just (01:21:56) go through the same stuff for those of

(01:21:59) you who've been around this (01:22:00) for the last 30 40 years it's like (01:22:05) okay deep breath one more time (01:22:08) i'm gonna believe you know and (01:22:10) disillusionment gets settled in (01:22:13) you know and it's we have to get to that (01:22:15) place where (01:22:17) we're not gonna give up we're just not

(01:22:20) gonna give up (01:22:21) we're gonna just like jacob did you know (01:22:23) he would not let go (01:22:25) he wrestled until he was blessed (01:22:29) we will wrestle until and it takes that (01:22:33) kind of tenacity (01:22:35) with the lord and just giving our lives (01:22:37) totally over to him surrender to him

(01:22:39) so we can see this not for (01:22:42) oh isn't this awesome what's happening (01:22:44) in our church or in our city it's like (01:22:47) for your glory for the lost (01:22:51) and the dying and the hurting and the (01:22:54) ones who are sick and (01:22:56) you know all of this that's going on (01:22:58) that i'm watching my friends

(01:23:00) die of can't of things that aren't (01:23:03) getting healed (01:23:04) that's not okay it's not okay (01:23:08) it shouldn't be okay it just shouldn't (01:23:11) be okay with us (01:23:13) and so something we have to grab hold of (01:23:15) the horns of the altar (01:23:17) you know we need to be doing that and

(01:23:19) asking the lord (01:23:20) what is it that you want us to do and (01:23:22) i'll tell you i know (01:23:24) his first answer is going to be come sit (01:23:26) a while (01:23:30) get to know me get to know my ways eat (01:23:34) the scroll (01:23:35) eat my word eat and drink of me

(01:23:40) that isn't just communion he's the word (01:23:44) jesus is the word eat of me (01:23:48) dig into the word know him know his ways (01:23:51) and be able to flow (01:23:53) with that because we're just too busy (01:23:56) going around drinking from other (01:23:57) people's wells and that's our problem (01:24:00) instead of digging our own you know and

(01:24:03) a lot of times we'll do (01:24:04) worship seminars and um you know work (01:24:06) with the prophetic singers and (01:24:09) it's like okay you you i could line (01:24:12) you know seven people up and have them (01:24:14) sing the exact same thing (01:24:16) i can tell you who owns it i can tell (01:24:18) you who believes it because it's

(01:24:20) delivered very differently (01:24:22) and the authority that's on it is very (01:24:24) different (01:24:25) and he's had me studying the whole (01:24:27) quantum physics thing and (01:24:29) it's very interesting how um (01:24:32) when you open up the physical aspect of (01:24:34) it you see

(01:24:35) what's actually happening when (01:24:37) somebody's releasing something that they (01:24:39) understand (01:24:40) and that's something we need to be aware

(01:24:43) of even in our city (01:24:45) when we're holding the prayer meetings
(01:24:46) we're holding the two or three gathered (01:24:48) together in my name

(01:24:49) when we're doing that it's not walls (01:24:52) mean nothing (01:24:54) it's
going out into the atmosphere it's (01:24:56) changing the atmosphere (01:24:58)
remember the transformation videos from (01:25:01) years ago when the people gathered
the (01:25:04) christians gathered at the um (01:25:06) coliseums and they prayed and
they

(01:25:08) worshiped and (01:25:09) all of the cartel drug cartel that was (01:25:13) it was
80 percent whatever (01:25:17) run by drug cartel uh the christians (01:25:20) were very
intimidated by that (01:25:22) they were they thought they were going (01:25:24) to
intimidate him more because one (01:25:25) pastor stood up to it

(01:25:27) and they killed him to make a example (01:25:30) out of him (01:25:30) they
made a martyr out of him flipped (01:25:32) around so all the christians began to
(01:25:34) gather (01:25:37) in unity you know laying all the (01:25:40) little things aside
and coming together (01:25:43) under the blood and the cross of jesus

(01:25:45) christ and the resurrection power (01:25:47) and and it literally physically
changed (01:25:50) the atmosphere (01:25:51) so much so that the ground was no longer
(01:25:55) cursed and barren it changed the (01:25:58) molecular structure (01:25:59) of
the ground to where it was lush and (01:26:02) green and drew

(01:26:03) grew vegetation and fruit and vegetables (01:26:06) and all of that (01:26:07)
that were larger you know setting (01:26:09) records (01:26:11) it wasn't cursed anymore
the curse was (01:26:13) broken (01:26:14) and that changes the molecular structure
(01:26:17) what god has in this whole journey of

(01:26:20) the whole quantum physics thing which (01:26:21) i'm (01:26:22) not really
going to go into that but he (01:26:24) was showing me that (01:26:26) he created all of the
physical laws and (01:26:28) principles and properties (01:26:30) all the spiritual laws and
principles (01:26:33) and properties

(01:26:33) actually to uphold each other and to (01:26:36) interface with each other which
(01:26:38) we now understand with quantum physics (01:26:41) it's actually very spiritual
when you (01:26:44) get into that newtonian science (01:26:47) classical science setup
you can see it (01:26:49) feel it touch it that's reality (01:26:51) and quantum physics says
uh actually

(01:26:54) it's the unseen realm (01:26:55) that is reality and it's affected by you
(01:27:00) it's affected by your thoughts it's (01:27:02) affected by your words (01:27:03)
it's affected by your attitudes you (01:27:07) are part of shaping and forming what
(01:27:10) resides in this city (01:27:13) your words your thoughts your attitude

(01:27:15) your unbelief (01:27:17) your belief you know whatever it is it's (01:27:19) going out (01:27:20) because when you get down to the uh (01:27:23) subparticle level we are all 99.9 (01:27:27) percent empty space (01:27:30) i know i always say yeah there's some (01:27:32) people i believe that about but

(01:27:34) but actually we all are we're empty (01:27:36) space and that's (01:27:38) energy and that's frequency that's going (01:27:40) out and no it's not new (01:27:41) age it's ancient age (01:27:44) this is how god put it together that he (01:27:47) created the things (01:27:48) the physical and the spiritual to

(01:27:51) uphold each other and coincide with each (01:27:53) other and then (01:27:54) this is the exciting part he created us (01:27:58) as a being to interface with both realms (01:28:01) at all (01:28:02) times at all (01:28:05) times we should be walking in the spirit (01:28:08) realm

(01:28:09) and the natural realm at all times (01:28:12) that's what we're created for so (01:28:18) that's what we can ask for (01:28:21) but the the way that we get that is (01:28:22) through intimacy with him (01:28:24) it's the only way oneness with him (01:28:28) he understands it all and he gives (01:28:31) access

(01:28:31) to it all and he's the only one (01:28:35) jesus christ he's the only one that (01:28:37) gives access to it all (01:28:39) he's the door he's the way he's the (01:28:40) truth he's the life and he says come eat (01:28:43) and drink of me (01:28:45) come sit a while come eat (01:28:51) and you'll see it all but that can't

(01:28:54) even be our motive (01:28:56) oh okay i'm gonna spend three hours (01:28:57) because i wanna (01:28:59) be the one that he uses for the me you (01:29:01) know and that's good (01:29:02) it says we should desire the gifts we (01:29:05) should desire prophecy (01:29:07) but not more than him not more than

(01:29:10) intimacy and relationship with him if (01:29:14) i could have that place with him (01:29:19) and never go anywhere again in my life (01:29:24) and stay be the doorkeeper of the house (01:29:27) of prayer in my church (01:29:29) that i would be thrilled with that i (01:29:32) mean i it's just (01:29:33) i can't think of anything better you

(01:29:36) know and (01:29:37) and enoch he's one who was a type and a (01:29:40) shadow for us (01:29:41) you know and what it says of him is he (01:29:43) so pleased god (01:29:45) that he took him even as a child (01:29:48) i wasn't even filled with the spirit in (01:29:50) fact we were told all this stuff was

(01:29:52) demonic because of the denomination i (01:29:55) was raised in (01:29:56) but i got the word and i got holiness (01:29:58) which seemed to be the two things (01:30:00) missing in (01:30:01) the charismatics world but so i'm glad (01:30:04) you know to have that foundation but i (01:30:06) had to unlearn so many things of

(01:30:08) what grace is and the spirit of god and (01:30:11) all of that and so (01:30:13) anyway but even as a child i thought (01:30:16) what could be better to have put (01:30:20) as a membrane remembrance of you because (01:30:22) it wouldn't be put on a tombstone (01:30:23) because you wouldn't die (01:30:25) it would just say so she so pleased god

(01:30:30) she was no more i just (01:30:33) oh it just amazed me crazy just (01:30:37) but you know what that's the invitation (01:30:40) for us (01:30:40) in this hour that's who we're supposed (01:30:43) to be (01:30:44) where we're going up and down we're (01:30:46) we're translating we you know all of

(01:30:48) these things (01:30:49) it's got to be us it's got to be us (01:30:52) because (01:30:53) we're that generation if people knew (01:30:55) what was the laws that were being (01:30:57) passed i can't go into all that but the (01:31:00) things that are being done behind the (01:31:01) scene

(01:31:03) you would know that you know that you (01:31:05) know this is it guys (01:31:07) and i love hebrews i love hebrews 11 (01:31:11) where he goes through all of hebrews and (01:31:13) he talks about (01:31:15) all the men and women of faith and then (01:31:17) it gets (01:31:18) down to the the last verse in that

(01:31:21) um in that scripture (01:31:24) let me just pull that up (01:31:35) um i call it the synergy of the ages (01:31:43) because he goes through and he lists (01:31:45) all of the different um you know and (01:31:49) and i love who he puts in there as the (01:31:51) men and women of faith (01:31:53) you know they messed up you know

(01:31:56) one was a prostitute you know i just i (01:31:59) love that about god (01:32:01) i love that because he sees us as the (01:32:02) finished product and (01:32:04) he sees our faith and you know it says (01:32:06) in scripture that (01:32:08) uh it is sin (01:32:11) to not have faith nobody talks about

(01:32:14) that (01:32:15) i mean literally scripture says it is (01:32:17) sin (01:32:18) to not have faith to not move in faith (01:32:21) faith is what pleases god (01:32:23) you know and and even if you make a leap (01:32:26) of faith that's (01:32:27) maybe a little more than you should have

(01:32:29) that's more pleasing i think to god (01:32:32) than the one who holds back because he (01:32:34) gives that scripture of the (01:32:36) the ones that are given the talents and (01:32:38) the one that buried his and (01:32:40) hid his to be safe he was (01:32:43) not happy with him and he took his away (01:32:45) and gave it to the person who had

(01:32:47) gotten out there and really done (01:32:48) something with it but anyway (01:32:50) this scripture goes through all of them (01:32:54) uh verse 36 uh talks about the different (01:32:57) things that happened (01:32:59) to them others had to suffer a trial of

(01:33:01) mocking and scourging in chains and (01:33:03) imprisonment they were stoned to death

(01:33:05) they were lured with tempting offers to (01:33:06) renounce their faith (01:33:08) they were sawn asunder (01:33:11) that means sawed in half they were (01:33:14) slaughtered by the sword while they were (01:33:16) alive they had to go about wrapped in (01:33:18) skins of sheep and goats utterly (01:33:20) destitute oppressed

(01:33:22) cruelly treated men (01:33:25) and women of whom the world was not (01:33:27) worthy (01:33:29) roaming over the desolate places in the (01:33:31) mountains and in caves and caverns and (01:33:33) holes in the earth (01:33:34) and all of these though they won divine (01:33:38) approval

(01:33:38) by their means by means of their faith (01:33:41) they did not receive the fulfillment of (01:33:43) what was promised (01:33:45) because god had us in mind and had (01:33:48) something better and greater in view for (01:33:50) us so that they these heroes and (01:33:52) heroines of faith (01:33:53) should not come to perfection apart from

(01:33:56) us (01:33:59) that's why i called the synergy of the (01:34:00) ages we all have our part (01:34:03) i mean to be born in this hour it's (01:34:05) crazy (01:34:06) i mean it's amazing i don't know if (01:34:08) you've ever heard bob jones (01:34:10) uh talk about the story where the lord

(01:34:12) brought him to the calls of the sands of (01:34:14) time and (01:34:15) he brought him to the edge and had him (01:34:17) put his hand down in the sand and (01:34:19) he brings up this box and he says well (01:34:22) what is this (01:34:23) and the lord said well that's my end (01:34:25) time army and he opens it up and there's

(01:34:29) pages i mean there's in like index cards (01:34:31) is when he (01:34:32) told us about it in kansas city in the (01:34:34) 80s he was saying it was (01:34:35) you know like index cards with people's (01:34:37) name written on it and the days (01:34:39) fashioned them (01:34:39) for them even before they were in their

(01:34:41) mother's womb (01:34:44) written on each one and (01:34:47) um he said i have saved (01:34:51) the best hearts of every family line (01:34:55) to be born in this hour (01:35:02) i was undone i'm i was sobbing (01:35:06) and i was kind of apologizing too i was (01:35:10) sorry i'm the best you got out of my

(01:35:12) family line but (01:35:15) we're trying you know and really all (01:35:18) he's (01:35:18) looking at is the yes the yes in the (01:35:22) heart the yes yes i don't know how to do (01:35:24) it i'm doing it wrong but yes i want (01:35:27) to be that that you've saved this last (01:35:31) generation to be

(01:35:32) i want to be one of the manifest sons of (01:35:34) god i want to walk in light (01:35:37) i want to be light i want to radiate (01:35:41) who you are in perfect (01:35:44)

love because that's what's flowing (01:35:47) through us because of the union (01:35:50) and the oneness that we have with christ (01:35:52) that's the result of that

(01:35:54) it's perfect love he told me (01:35:58) 15 20 years ago he said this phrase that (01:36:01) we're trapped light (01:36:04) that's what got me into studying physics (01:36:06) because i had to (01:36:08) okay what does that mean search it out i (01:36:10) love that scripture it's the glory of (01:36:12) god to hide a matter glory the king to

(01:36:14) search it out (01:36:15) and so i went to study light (01:36:18) and that set me in front of the (01:36:22) physics section at the bookstore just (01:36:24) going (01:36:25) what i mean i hated (01:36:29) science in school my friend and i were (01:36:32) partners and we blew things up in

(01:36:34) chemistry because we (01:36:35) didn't have a clue of what we were doing (01:36:38) and we were felt so overwhelmed and lost (01:36:40) we just didn't even think about (01:36:42) making it real so (01:36:46) he wasn't fond of us but (01:36:51) anyway you know so for me this is not a (01:36:54) propensity that i have

(01:36:56) at all so anyway he leads me along this (01:36:59) journey of (01:37:01) and this was interesting to me you know (01:37:04) when he takes you on this journey that (01:37:06) you don't know where you're going you (01:37:07) don't even know where you're headed (01:37:09) and i love that about him it's like that (01:37:12) lost

(01:37:13) raiders movie where he's at the edge of (01:37:16) the precipice and there's the doorway (01:37:17) over there (01:37:19) and if he's gonna walk across i mean get (01:37:22) it's if you fall you're dead and so he (01:37:25) literally has to lift his foot (01:37:29) put all his weight on that foot before (01:37:32) something materializes under

(01:37:34) him that's faith i love that's such a (01:37:37) picture of faith (01:37:39) so anyway um you know that's the walk of (01:37:41) faith that we do (01:37:42) so and to me it's kind of like a hot and (01:37:45) cold that hot and cold game (01:37:47) and and you'll take a step and you'll go (01:37:49) a direction you'll be

(01:37:51) you're getting warmer you know or you (01:37:53) are so cold (01:37:54) come on back over here you know so and (01:37:57) he does it in a loving way (01:37:58) you know i figured that out he does it (01:38:00) in a loving way you know he's he's glad (01:38:02) that we're (01:38:04) trying you know he loves the yes he

(01:38:06) loves the excitement he loves the faith (01:38:09) that excites him about us so rather than (01:38:12) playing it (01:38:12) safe all the time you you're not gonna (01:38:18) you're not gonna get there playing it (01:38:20) safe you just aren't (01:38:22) so anyway um that got me into looking at (01:38:25) that so then

(01:38:26) a couple years later i'm at this (01:38:28) conference and i knew john paul jackson (01:38:30) in kansas city he was there for a few (01:38:32) years (01:38:33) a

couple years and i was in this (01:38:36) prophetic group that he did and so (01:38:39) uh i hadn't seen him i think in about (01:38:42) eight

(01:38:42) years or something like that we end up (01:38:44) being at a conference together (01:38:46) and so i have no idea what he's doing he (01:38:48) has no idea what i'm doing and (01:38:50) he talks about this uh this experience (01:38:52) he had in heaven where he's (01:38:54) he gets brought to heaven and there's (01:38:56) this powerful

(01:38:58) light that's just hammering down on him (01:39:02) and he's standing there and he's (01:39:06) got his hands crossed and he said he was (01:39:08) screaming at the top of his lungs (01:39:10) because he was fully aware that if god (01:39:12) even (01:39:13) thought about thinking (01:39:16) that he was dead he was dead and he felt

(01:39:20) that intensity (01:39:21) he said every fiber of his being was (01:39:23) alive (01:39:24) and he could see how things interact (01:39:26) with that that science doesn't know (01:39:28) medicine doesn't know (01:39:30) and he said the voice came in his head (01:39:33) and said

(01:39:34) i am that aware of all things (01:39:38) at all times in all of creation (01:39:42) we just don't get it you know if he's (01:39:45) he's singing your song if he stops (01:39:48) thinking about you (01:39:49) not only do you die you don't exist (01:39:54) it's as if you never were you know (01:39:57) that's how

(01:39:58) sustaining it says in him all things (01:40:00) consist (01:40:02) we've got to get that so that we're (01:40:04) depending on him that way we're (01:40:06) connecting with him that way (01:40:08) we're living out of that eat of me drink (01:40:11) of me (01:40:11) you are everything i need you for

(01:40:14) everything (01:40:15) to breathe you're my breath you're my (01:40:17) you know we have to get to that place (01:40:18) and that desire and that oneness with (01:40:20) him (01:40:20) to be able to walk this out so he said (01:40:24) when he was there when a word was (01:40:27) released from heaven

(01:40:28) he said every word that was was spoken (01:40:31) or released in heaven (01:40:32) he saw a color of light (01:40:36) music heard music smelled a fragrance (01:40:39) and saw a numerical equation (01:40:43) that came out with every single word and (01:40:45) i just started sobbing because that's (01:40:47) physics

(01:40:47) the whole numbers thing is what it's all (01:40:50) based on everything's based on numbers (01:40:52) and so i felt like ah with such a kiss (01:40:54) from god okay this is okay because i (01:40:57) walk in trembling (01:40:58) you know in in these kinds of things and (01:41:02) so anyway afterwards i went up to him (01:41:04) and i said

(01:41:06) you know thank you for sharing that (01:41:08) because i go in front of the physics (01:41:10) section and i go (01:41:11) what and he said he laughed through his

(01:41:14) head back he said i do exactly the same (01:41:16) thing he said uh (01:41:18) we should share bibliography sometime (01:41:20) and so i pull out three books because

(01:41:22) before kindle i had books you know a (01:41:24) suitcase full of books everywhere i went (01:41:26) so i pulled three out and he just shook (01:41:28) his head he said i (01:41:29) i just read that one i am reading that (01:41:33) one (01:41:33) and i just saw that one and knew i would (01:41:36) get that next

(01:41:37) and he was just you know like and i (01:41:39) thought ah (01:41:40) thank you god you know it's one of those (01:41:42) you're getting warmer you're getting (01:41:43) warmer (01:41:44) but you know just the things that god's (01:41:47) showing us and wanting us to have (01:41:49) understanding about i think daniel's

(01:41:50) another type and shadow (01:41:52) for for what we're walking into (01:41:55) he was a man of light i love that that (01:41:58) the descriptions of daniel (01:42:00) that he was a man of light uh in (01:42:03) understanding and and how they (01:42:06) separated themselves to be able to be (01:42:09) full of him and the spirit of god and

(01:42:13) this was pre-cross (01:42:15) and yet he had he was a man of light and (01:42:18) had (01:42:18) understanding chapter 5 (01:42:21) of daniel's really great it goes in and (01:42:24) talks a lot about (01:42:26) describing him as a man of light and the (01:42:29) and they

(01:42:29) people describing him described him as a (01:42:31) man of light and (01:42:33) um you know i've have you heard of (01:42:37) neville johnson you got a lot of you (01:42:39) know neville johnson's (01:42:41) awesome man of god another one he's just (01:42:44) walking love that's (01:42:46) i love the fruit of who he is because

(01:42:48) he's just walking love (01:42:50) and he might know what you're doing is (01:42:54) off (01:42:55) or he might know sense from you because (01:42:58) he's so (01:42:58) sensitive so one with the lord that he (01:43:01) can (01:43:02) even sense things that that you're doing

(01:43:05) or that (01:43:06) or just belief systems you have or (01:43:09) whatever (01:43:10) but you would never know it he he's just (01:43:13) love (01:43:14) he just operates in love so anyway (01:43:15) neville (01:43:17) had had the experience where he was

(01:43:19) taken into the millennium (01:43:21) and he's been there a few times and he (01:43:24) said (01:43:26) i'm just going for it so (01:43:30) he said there's people in the millennium (01:43:33) he said (01:43:33) who he said it looks like they're (01:43:36) wearing a cloak of light

(01:43:39) and he said if you're one of those in (01:43:41) the millennium (01:43:42) he said you might be an architect in (01:43:46) but you don't build a building you grow

(01:43:49) a building (01:43:51) he said you release your (01:43:52) understanding of how a building is (01:43:54) structured and your creativity

(01:43:56) and it the building grows and he said (01:43:59) it's (01:43:59) based on like einstein's theory of (01:44:02) relativity and light and energy (01:44:04) equaling mass and he said but it's only (01:44:06) the people who (01:44:07) look like they're wearing a cloak of (01:44:08) light and there was a circle of

(01:44:09) musicians (01:44:11) and he said they were all they had the (01:44:12) light and they (01:44:14) all were skilled at releasing tones and (01:44:16) frequencies he said (01:44:17) the most beautiful thing i've ever seen (01:44:21) could not have even imagined was taking (01:44:23) shape and form

(01:44:24) in the middle of the circle and i i was (01:44:29) undone because i have i had felt that at (01:44:32) times that (01:44:32) i should actually be able to do that and (01:44:35) then (01:44:35) reigned myself in thinking you're (01:44:37) reading too many books or (01:44:39) watching too many sci-fi movies and i

(01:44:42) you know just (01:44:43) wanting to not be out there but so i (01:44:45) went up to him afterwards and i said (01:44:47) okay (01:44:49) then if that's what we can walk in (01:44:53) in the millennium and (01:44:57) david reached into the age to come (01:45:00) and he lived out his life out of a

(01:45:03) post-cross mentality (01:45:07) there's ones who reached in enoch did (01:45:12) pre-pre-pre-cross you know reached (01:45:15) in and had a an a relationship with god (01:45:19) bypassed the dispensation of time that (01:45:22) he lived in (01:45:23) i said so if that's true can't we do (01:45:26) that now

(01:45:27) and he said oh i guess i forgot to say (01:45:30) the ones that are operating in that in (01:45:32) the millennium he said (01:45:34) it's because they attained it on this (01:45:36) side of the millennium (01:45:39) and who god has in store for us to be (01:45:43) and to walk and release who he is (01:45:46) the christ in us the hope of glory

(01:45:49) is so much bigger than what we've ever (01:45:53) ever imagined and what he wants us to be (01:45:57) so one with him and so resigned (01:46:01) and so full of his perfect love that we (01:46:03) shine (01:46:04) and one meeting i was talking about this (01:46:06) this this lady came up to me afterwards (01:46:08) and she was

(01:46:09) middle-aged she was very gentle very (01:46:12) meek (01:46:13) in her personality and she said (01:46:18) you know i've never told anybody this in (01:46:21) my life i never thought i would ever (01:46:23) tell anybody (01:46:24) because i just didn't think that (01:46:28) anybody would believe me but she said i

(01:46:31) was in a (01:46:32) a convent for 10 years and in our (01:46:36) convent you didn't talk (01:46:38) and she said um we glowed (01:46:41) she said light was coming out

of our (01:46:44) skin (01:46:45) and she said you'd we didn't talk we (01:46:48) never had to ask each other how we were

(01:46:50) because we would just when we passed (01:46:52) each other we knew exactly (01:46:54) how each other were now in heaven that's (01:46:58) how it works (01:46:59) you don't speak it's thought to thought (01:47:03) and there's a sensitivity that we can (01:47:05) develop now (01:47:06) to be able to to operate in that and uh

(01:47:10) and actually quantum physics i that's (01:47:12) given me a lot of understanding about (01:47:13) that stuff i think this is (01:47:15) really how we were created to exist (01:47:18) and we lost it at the fall but (01:47:22) the curse was broken you know (01:47:26) jesus shed blood reversed (01:47:30) everything that was released with the

(01:47:32) curse (01:47:33) you know and and i heard somebody once i (01:47:36) thought that's interesting the way they (01:47:37) were they were talking about the (01:47:39) the result of sin and saying it wasn't (01:47:42) like god said (01:47:44) you bad person because you did that now (01:47:48) he said it was like god's saying when

(01:47:51) you go to the original language it was (01:47:54) you know i wish you hadn't done that you (01:47:56) know because (01:47:58) this is what happens now this is the (01:48:01) result (01:48:02) this is how a person has to live if (01:48:05) they're not eating from (01:48:07) the tree of life this is how a person

(01:48:10) has to live (01:48:11) if they're eating from the tree of the (01:48:13) knowledge of good and evil (01:48:15) and that is going to be one of the (01:48:19) demarcation lines in the church (01:48:23) are we eating from the tree of the (01:48:25) knowledge (01:48:26) of good and evil or are we eating

(01:48:30) from the tree of life and jesus christ (01:48:33) is the tree of life are we figuring it (01:48:35) out with our own mentalities our own (01:48:38) the thoughts of man the traditions that (01:48:40) have been passed down (01:48:41) or are we eating from the tree of life (01:48:44) and becoming life (01:48:46) and becoming light and becoming pure

(01:48:50) unadulterated love pure (01:48:54) walking love heidi baker operates in (01:48:58) what she (01:48:58) operates because it's just (01:49:02) love that is (01:49:05) leaking all over everyone that she comes (01:49:08) into contact with you know i've been in (01:49:11) pemba several times with her and

(01:49:13) watched her pick up a limp baby and just (01:49:16) you know hold them and love them and (01:49:20) you know or or an adult and just love (01:49:23) them back to life (01:49:25) love them back to life and it's just the (01:49:28) pure (01:49:29) flow of the love of god that's what we (01:49:32) were created to be

(01:49:34) and that's what we can walk into and (01:49:36) that's what we can step (01:49:38) into and that's part of that take (01:49:41) hope you prisoners of hope

(01:49:44) you know return to the stronghold (01:49:47) it's not about us it's not about what we (01:49:50) can and can't do (01:49:52) it's about what he's already done and

(01:49:54) it's about what is in his heart to do (01:49:57) and he's chosen us he's already chosen (01:50:01) if you're alive now he's chosen you (01:50:05) so you get to be one of the overcomers (01:50:09) and the whole (01:50:10) letters to the seven churches to he who (01:50:13) overcomes da da da da da (01:50:15) he who overcomes do a study on that

(01:50:20) it's amazing and it's the overcomers (01:50:23) that then (01:50:23) are able to walk in this uh this life (01:50:27) that he wants us to walk (01:50:28) in there's so much more there's such a (01:50:31) big picture (01:50:32) on this thing that has to do with the (01:50:34) age to come

(01:50:36) that we could reach into the age to come (01:50:38) there are people who are doing that now (01:50:41) they're doing things in the spirit realm (01:50:43) they're in the heavens as much as (01:50:45) they're (01:50:45) on the earth and they're uh operating in (01:50:49) heavenly ways and going to the courtroom (01:50:52) in heaven and

(01:50:53) you know there is so much of that that's (01:50:55) going on now that we could partake of (01:50:58) and that we (01:50:58) were created to be and to partake of and (01:51:01) we just need to (01:51:02) ask the lord we have to come to him (01:51:04) because it's all through intimacy (01:51:06) again it can't be through learning

(01:51:08) something (01:51:09) uh as in the knowledge of good and evil (01:51:11) or the knowledge (01:51:12) because there's a whole thing in that i (01:51:14) can't don't have time to go into but (01:51:17) he wants us to eat and drink of him (01:51:22) eat and drink of him make that your (01:51:24) priority

(01:51:25) adam and dez farrell awesome book (01:51:30) eat of my flesh drink of my blood and (01:51:34) she talks about some of the amazing (01:51:35) experiences they've had you know in (01:51:37) scripture (01:51:38) it talks about well obviously when god (01:51:41) brought the (01:51:42) israelites through the desert through

(01:51:44) the wilderness they ate (01:51:46) of him they drank of him with the rock (01:51:50) that was struck or the walk that should (01:51:52) have been spoken to the second time (01:51:54) you know that was the representative of (01:51:56) jesus christ (01:51:57) drinking of him the manna the bread from (01:52:00) heaven

(01:52:01) that's jesus christ so we see that (01:52:04) example then you see (01:52:06) one time when elijah is fed (01:52:09) heavenly food and drink and he goes 40 (01:52:12) days (01:52:13) on that and then you see uh moises when (01:52:16) he's up getting the ten commandments it (01:52:18) says

(01:52:18) he didn't eat or drink for forty days (01:52:21) after (01:52:22) god fed him those are just (01:52:27) tokens we can eat and drink of him (01:52:32) and we really

really can eat and drink (01:52:35) of him and have him sustain us (01:52:37) fasting is important in this hour (01:52:41) fasting is important

(01:52:45) just to take that time and not as a law (01:52:48) but to go to him and sit a while with (01:52:51) and ask him you know (01:52:55) what do you want me to do when i'm (01:52:57) fasting because it's my idea (01:52:59) that's a bummer that does not work very (01:53:03) long (01:53:04) but when it's his idea the grace is

(01:53:07) you know it just takes a little bit of (01:53:09) push through on the first day (01:53:11) couple days but if it's his idea (01:53:14) it's there but what that does is takes (01:53:16) everything else (01:53:17) out of us so it's just him we're just (01:53:21) eating and drinking of him (01:53:23) and this place of communion is so very

(01:53:25) important (01:53:26) there's a lot of books if you just want (01:53:29) take some time in the next season and (01:53:32) study communion (01:53:34) look everything up about it in scripture (01:53:36) look it up in the original language (01:53:38) eating and drinking of him do this in (01:53:42) all the time i remember you i eat of you

(01:53:44) i drink of you (01:53:46) you know seven times a day david stopped (01:53:49) and did his meditation on the lord (01:53:52) seven times a day i eat of you i drink (01:53:56) of you (01:53:56) you are my sustenance you (01:54:00) you know and just reminding ourselves (01:54:02) because we have to retrain ourselves

(01:54:05) because we're just not used to that we (01:54:08) have to retrain the automatic thought (01:54:10) patterns (01:54:10) the automatic default that we go to (01:54:14) we have and we can set that pattern and (01:54:17) literally 30 days (01:54:19) of doing something like that if you took (01:54:21) 30 days

(01:54:23) took an hour in the morning or whatever (01:54:25) it is the time for you i don't want to (01:54:26) make it a religious (01:54:27) something but a time period of time in (01:54:29) the morning that you took with the lord (01:54:32) and did eat and drink of him did (01:54:34) communion with him (01:54:36) seven times a day stop and do the

(01:54:40) and meditate on him end your day with (01:54:43) communion before you go to sleep (01:54:45) meditating on him praying in tongues (01:54:48) being in that place so that when you (01:54:50) body when your body rests that's what (01:54:52) the last spot (01:54:55) is of him you know instead of what do (01:54:57) you got to do tomorrow

(01:54:59) you know though honestly doing that for (01:55:02) 30 days you will re-groove (01:55:06) patterns in your thinking it'll change (01:55:09) because that's just (01:55:10) how he created us is these (01:55:13) now we have these automatics that we (01:55:15) always go to you (01:55:17) as a being you have 400 billion bits of

(01:55:20) information that pass through you per (01:55:23) second you (01:55:26) filter out all but 2 000 bits of (01:55:30) information (01:55:31) to your conscious mind and you

do that (01:55:35) according to your belief system (01:55:39) so things that are real in heaven things (01:55:42) that a reality in the spirit realm

(01:55:45) that we could see we don't see because (01:55:47) it's not according to our belief system (01:55:49) that we can see (01:55:52) all those things get shredded (01:55:56) you know very interesting when we begin (01:55:58) to understand how the physical realm is (01:56:00) set up and how the spirit realm is set (01:56:02) up and then how he designed us as a

(01:56:04) being to interface with both realms at (01:56:06) all times (01:56:07) there's a whole lot we could be walking (01:56:09) in so (01:56:11) you know i don't want to go on and on (01:56:13) and keep us (01:56:14) late but i i just wanted to drop that on (01:56:17) you

(01:56:18) communion is a biggie (01:56:21) right now coming and sitting a while (01:56:25) and eating and drinking of him and (01:56:28) eating from the tree of life (01:56:31) and ask him what does that mean you need (01:56:33) to dig for your revelation of that (01:56:36) so that you operate it out of your (01:56:38) operate in it out of your understanding

(01:56:41) and your walk with him and your history (01:56:44) with him (01:56:44) and your journey with him um (01:56:49) and and when you speak at this i didn't (01:56:52) say this (01:56:53) because i i thought this was important (01:56:54) to talk about (01:56:56) when i was talking about the maybe seven

(01:56:58) people who are singing (01:57:00) the same thing and you can hear who (01:57:02) believes it and who doesn't (01:57:04) um there's a i was going to teach on the (01:57:08) voice (01:57:08) at one of chuck pierce's deals (01:57:12) and the authority of the voice and my (01:57:14) intercessor had been praying for me that

(01:57:16) morning and i never tell her what i'm (01:57:17) going to do because i (01:57:18) want to know she's hearing from god so (01:57:20) she texted me and she said oh i'm (01:57:22) praying for you this morning and i hear (01:57:24) three words i heard trend and (01:57:27) voice and map and she said (01:57:30) i can't figure out what it is i've

(01:57:32) prayed and i've even googled all the (01:57:33) combinations she said i can't (01:57:35) i don't know what this is about so i (01:57:37) texted her back and said well i know (01:57:38) what voice is about i'm going to speak (01:57:40) on that this morning (01:57:41) so i went back to the hotel i mean this (01:57:42) afternoon so i went back to the hotel

(01:57:45) and i thought you know i know about (01:57:47) brain mapping (01:57:49) you know where they can see what's (01:57:51) happening in a person's brain (01:57:53) by the aspects of the brain that light (01:57:56) up (01:57:56) when certain things are done they can (01:57:58) tell where it's coming from in the brain

(01:58:00) and what's operating (01:58:03) which actually there's a part of your (01:58:04) brain that doesn't operate except when (01:58:07) you're in fervent prayer (01:58:08) spiritual ecstasy or trance (01:58:11) or which is pretty amazing (01:58:14) and then you can actually probe that (01:58:17) part of the brain and throw somebody

(01:58:19) into it (01:58:20) but that god built himself in us that's (01:58:23) just how he made us (01:58:25) so that we to relate with him but anyway (01:58:28) blah blah blah the point is i i thought (01:58:30) is there voice mapping (01:58:32) you know so i looked that up and it was (01:58:35) a brand new thing

(01:58:36) um there was only one article at that (01:58:39) time that was written in english the (01:58:41) rest were in german (01:58:42) germany is way ahead of us in the (01:58:43) frequency thing they use (01:58:46) that in their hospitals the uh (01:58:49) france britain i mean they use (01:58:54) you know we've talked to i've talked to

(01:58:55) some people about the essential oils all (01:58:57) of that it's used in other places just (01:58:59) not here (01:59:01) but we won't go there so um anyway (01:59:04) the uh the voice mapping was a (01:59:08) a new science or a new trend or whatever (01:59:10) you want to call it (01:59:12) uh where they could take three or four

(01:59:14) minutes of somebody (01:59:15) speaking and when they were speaking (01:59:19) they could read the frequency of their (01:59:21) voice and know (01:59:22) 12 things about them they could actually (01:59:25) tell if the person (01:59:27) felt loved conditionally or (01:59:29) unconditionally

(01:59:30) they could tell if the person loved (01:59:32) conditionally or unconditionally they (01:59:34) probably go hand in hand (01:59:36) uh they could tell if this was (01:59:37) interesting the opposite um (01:59:39) anger they could tell if a person was (01:59:41) angry or they could tell if they were (01:59:43) able to go with change

(01:59:46) so i had to think that one through and i (01:59:48) thought you know that pretty much (01:59:50) you get angry because you can't make (01:59:51) something different than what it is or (01:59:53) you can't make somebody be different (01:59:54) than what (01:59:55) you know or something they're doing that (01:59:56) you want to be different you get angry

(01:59:58) about it (01:59:59) but anyway they had all these things and (02:00:01) it would help them to (02:00:02) uh be able to see what was going on with (02:00:05) the person but it was their voice (02:00:06) imprint (02:00:07) that it's all registered in and so the (02:00:10) person could be talking about their

(02:00:12) mom and say i love my mom she was a (02:00:14) saint she prayed she (02:00:15) you know and it would register (02:00:22) not so much you know but it might be (02:00:24) that you just felt like you need to say (02:00:26) those things (02:00:27) to honor your mother and father or it (02:00:29) might be that

(02:00:30) you weren't even in touch with the (02:00:33) unresolved things that were there but it (02:00:36) would help them to know how to help (02:00:37) somebody (02:00:38) it was very interesting so what i'm (02:00:41) saying out of that is (02:00:43) when you speak your belief system is (02:00:47) being released

(02:00:50) your attitudes are being released that's (02:00:53) why jesus (02:00:54) said you say if you commit adultery (02:00:59) it's a sin i say if you even think about (02:01:03) it (02:01:04) it's a sin that's one of the reasons (02:01:09) because it's as if you did it uh (02:01:12) you know they have these things where

(02:01:13) people will exercise (02:01:15) and they'll have a a control group (02:01:17) that's actually doing the exercise (02:01:19) and then they'll have a control group (02:01:20) that's thinking the exercising i've got (02:01:23) to plug into this (02:01:25) but on those long plane rides i could (02:01:29) just be

(02:01:29) thinking about sit-ups you know but they (02:01:32) they literally have the development of (02:01:36) the muscles (02:01:37) that it just thinking about doing it (02:01:41) you know so we don't get how god created (02:01:45) it's i just love this love this kind of (02:01:48) thing and the mysteries that are opening (02:01:49) up so we can walk in

(02:01:51) we should be the ones leading in this we (02:01:54) have the creator inside of us (02:01:57) he's created light he's created (02:02:00) uh we live in the created light realm (02:02:02) that he put us in (02:02:05) but he's uncreated light and he (02:02:08) lives inside us uncreated light trumps (02:02:11) created light

(02:02:13) you know that's what's in us we don't (02:02:16) have to be subject to the laws of (02:02:19) we don't have to be subject to time and (02:02:22) space (02:02:23) because he lives in us because of that (02:02:26) and because of the cross it was defeated (02:02:30) we don't have to die i totally believe (02:02:34) we don't have to die because of the

(02:02:37) resurrection power of christ (02:02:40) we don't have to die and i think that's (02:02:43) you know this is the (02:02:45) the group this is the time period where (02:02:47) we just (02:02:48) i want to be so full of who he (02:02:51) is and so empty of my thoughts on my (02:02:54) opinions and my agendas

(02:02:56) that when when we walk into the (02:02:59) spirit realm it's just like walking (02:03:01) through a door (02:03:02) nothing's different because we carried (02:03:04) it within us (02:03:06) because we can do that and we can be (02:03:08) that in the world (02:03:10) we can carry him in that way because it

(02:03:13) really is just about carrying him (02:03:15) and the fullness of christ christ in us (02:03:18) the hope of glory (02:03:20) we can live our lives out full (02:03:23) of christ

and everything that he is (02:03:27) and everything that he was and (02:03:30) everything that he will be (02:03:32) alive in us so lord i ask that you would

(02:03:37) just hover around each person here (02:03:42) by your spirit be that ring of fire (02:03:46) around each person just to (02:03:51) hover over them (02:03:54) and lord any word spoken anything (02:03:58) released that was not of you let it fall (02:04:00) to the ground (02:04:02) but lord anything that was of you

(02:04:05) let it go deep and let the seed be (02:04:08) planted any truth that is of you (02:04:12) let the seed be planted and be jealous (02:04:15) over it god (02:04:17) you bring to fruition what you've called (02:04:19) us to be (02:04:21) we depend on you for that but we say (02:04:25) lord whatever whatever you say is good

(02:04:29) is good (02:04:31) whatever you say is truth is truth (02:04:34) and we align ourselves with you and your (02:04:36) thoughts and we ask (02:04:38) hover over us with the mind of christ (02:04:41) and as we eat (02:04:42) of you and we drink of you (02:04:46) let the fullness of who you are take

(02:04:49) over our being (02:04:51) that it is no longer i that lives but (02:04:53) christ that lives in me (02:04:57) lord i ask that you would give us that (02:04:59) revelation (02:05:00) give us the revelation of the cross the (02:05:03) revelation of your (02:05:05) shed blood and all that it did on our

(02:05:08) behalf (02:05:08) and give us the revelation of your (02:05:11) resurrection (02:05:12) power lord we want to be (02:05:17) everything that you are inviting us to (02:05:19) be (02:05:20) whatever it takes whatever it looks like (02:05:25) hover around us with your jealousy

(02:05:29) and lord we just position ourselves (02:05:33) we just simply position ourselves in (02:05:36) that place and every time we forget (02:05:38) and we remove ourselves from being (02:05:40) positioned (02:05:41) before you to do whatever you want to do (02:05:45) every time we forget remind us (02:05:48) remind us god don't let us be given to

(02:05:52) our own thoughts (02:05:53) don't let us be taken away by our own (02:05:56) ideas (02:05:57) and traditions and and things that we've (02:06:00) believed (02:06:00) that just aren't true you're the way (02:06:04) you're the truth you're the life (02:06:08) and we eat and drink of you and you

(02:06:10) alone and we make (02:06:12) you our boundaries we make you our (02:06:14) borders (02:06:16) nothing else you are our boundaries (02:06:20) you are our borders we ask that you (02:06:24) encircle us with your jealousy and be (02:06:27) jealous over us and when we let go (02:06:30) god come and grab us up again remind us

(02:06:33) again (02:06:35) we take of you and we eat and we take of (02:06:38) you and we drink that we might be ones (02:06:42) that can walk in the fullness of the (02:06:44)

manifest sons of god that you have saved (02:06:47) for this hour and that all creation (02:06:51) groaning that we would be aware of all (02:06:54) creation groaning

(02:06:56) we would be aware of the push from (02:06:59) we would be aware of the angelic that is (02:07:01) being released from heaven (02:07:03) to be at our side to be ministers to (02:07:07) what it is you're calling us to do (02:07:09) lord we just say release those angels (02:07:12) release those (02:07:13) angels release those angels lord

(02:07:16) as we worship you and give ourselves to (02:07:19) as they're drawn to the worship and the (02:07:22) love and the joy of (02:07:23) who you are in our lives and in us lord (02:07:27) that this place would be filled this (02:07:30) city this region would be filled (02:07:32) where we live would be filled with (02:07:35) angelic activity that comes from you

(02:07:38) because of your (02:07:39) presence your presence that's what we (02:07:43) want (02:07:49) god we believe help our unbelief (02:07:54) we ask that you would do this (02:07:58) for your glory (02:08:01) we don't want to be left to ourselves (02:08:04) and we don't want any surprises on the

(02:08:07) other end (02:08:08) of what we could have walked in if (02:08:11) only we want the full thing lord (02:08:17) we love you and we run and we pursue you (02:08:21) we run after (02:08:23) all that you have for us we thank you (02:08:26) for that (02:08:29) jesus name amen

(02:08:37) thanks so much joanne (02:08:45) i told you she is more out of the box (02:08:47) than me (02:08:48) could you tell it's good stuff good (02:08:51) stuff it is (02:08:52) all about that intimacy with god you (02:08:54) know (02:08:55) um and i really appreciate one of the

(02:08:57) things she said about uh (02:08:59) the habit patterns that we have (02:09:02) you know and some of us so easily look (02:09:06) for the quick fix (02:09:07) but really it's a daily devotion you (02:09:10) know we got to reset our head (02:09:14) our pattern our whole body our whole (02:09:15) being uh you know just and if we can

(02:09:18) just re-tune ourselves (02:09:20) you know bring ourselves into alignment (02:09:22) through a daily devotion (02:09:24) you know in a set pattern then it will (02:09:27) come natural (02:09:29) but we look we're in a society of (02:09:32) microwave and (02:09:33) quick fix and all this kind of stuff and

(02:09:35) that's just not the way it works in (02:09:37) reality you know (02:09:38) we have to reset our whole whole being (02:09:41) our entire being (02:09:42) just being union with god and so (02:09:46) thank you joann we love you and (02:09:50) by the way you know if you pray for (02:09:52) joanne you can tune into her frequency

(02:09:55) um because i actually was praying for (02:09:58) her about a week ago in that last song (02:10:00) that i did (02:10:01) um in worship holy holy holy is the lord

(02:10:04) of hosts and (02:10:05) the angels all cry it came to me in a (02:10:08) dream
(02:10:09) the night i would you know the night

(02:10:11) after i was praying for her you know i (02:10:13) went to bed after praying for
and uh (02:10:16) this song was just there and i said i i (02:10:19) know where that came
from i tuned into (02:10:21) joanne's frequency so i got into the (02:10:24) or the genetics
and all this kind of (02:10:26) stuff you know and i tuned in and (02:10:28) received that

(02:10:29) because i mean even the the sound of the (02:10:31) song sound (02:10:33)
sounded like your style you know sound (02:10:36) like your dna (02:10:37) you know so
but uh (02:10:42) yeah there are benefits you know so that (02:10:43) should encourage
you to pray for the men (02:10:45) and women of god you know

(02:10:47) support them amen well it's been a great (02:10:50) time you guys (02:10:52)
um i don't know what else to add to what (02:10:54) joanne just (02:10:55) prayed you
know it's all good but we (02:10:58) just want to bless you guys (02:10:59) and lord we just
say the lord give you (02:11:03) peace and make his face

(02:11:05) shine upon you give you peace give you (02:11:08) rest father we thank you for
the light (02:11:10) of your countenance lord on your people (02:11:13) lord jesus let the
light of your (02:11:15) countenance shine upon your people (02:11:17) lord that we would
awake with your light (02:11:20) upon our accountants (02:11:21) jesus we just thank you
father that

(02:11:23) tonight you give us divine dreams (02:11:26) uh sweet sleep encounters with
you lord (02:11:29) that you would bring us into your (02:11:30) frequency (02:11:32)
jesus and we thank you for that (02:11:35) in your precious name amen (02:11:38) god
bless you guys and we'll see you (02:11:41) again soon i'm sure

(02:11:44) oh and would you guys just a favor uh (02:11:47) this is just a simple task
(02:11:48) if you could just look around if you see (02:11:51) any trash on the floor let's
help the (02:11:52) oasis church (02:11:54) once again i want to thank this man (02:11:59)
james fortune and his wife canada for (02:12:02) opening up their church

(02:12:05) come here james this guy (02:12:09) has been in every session he's been in
(02:12:12) every session (02:12:12) you know i've been in cities where we've (02:12:15)
used other people's churches and (02:12:17) the leaders don't even show up i mean
(02:12:20) god bless you (02:12:21) you know really you know we'll be

(02:12:24) praying for you (02:12:25) and bless your church lord with the (02:12:26)
residual anointing god that you would (02:12:30) his light would just somehow permeate
(02:12:34) you know all that kind of stuff joanne (02:12:36) talked about amen

(00:00:00) [Applause] (00:00:01) [Music] (00:00:25) We've come today with a very important (00:00:27) message that it doesn't weigh heavy on (00:00:30) me because it's not a (00:00:32) load, but it's heavy on me because it's (00:00:36) important. You came to this conference (00:00:38) to be

(00:00:40) altered. You might not have used that (00:00:43) word, but that frequency need has been (00:00:47) demonstrated in your (00:00:49) life. The frequency (00:00:52) needed for you to know more about your (00:00:56) assignment is what this is all about. (00:01:01) a frequency needed. Well, now when I (00:01:03) talk about

(00:01:05) frequencies, I can often talk about (00:01:07) music and sound and pitch and tunings. (00:01:10) I'm qualified and capable. 40 years of (00:01:14) development of the synthesizer industry (00:01:16) is my (00:01:17) background. Dr. Moog and I developed the (00:01:20) first analog, then the digital, then I (00:01:23) did the laser optical. Now, we're doing

(00:01:26) the periodic table of element (00:01:30) synthesizers that produce the sounds (00:01:32) that God made when he called matter to (00:01:36) be. Now, you look at that and you say, (00:01:38) "David, I I don't understand that." That (00:01:40) didn't change any of the (00:01:44) facts. You say, "I don't understand it. (00:01:46) I don't under I don't get

(00:01:48) it. Yahweh spoke." Word says he (00:01:53) said I love to think of it as a (00:01:56) song. Song is more than one pitch. He (00:02:00) looked into the cosmos and he said let (00:02:03) there be and his glory became physical (00:02:07) and the electromagnetic spectrum showed (00:02:10) up. (00:02:12) All of the electromagnetic spectrum is

(00:02:15) part of God's glory. From gravity waves (00:02:18) to the speed of (00:02:19) light. And unfortunately for most of my (00:02:22) physics friends, it doesn't stop at the (00:02:24) speed of (00:02:26) light. Some of you read my writing. Some (00:02:29) of you may agree or not agree with it. (00:02:31) I'm not very popular with the modern

(00:02:34) physicist. (00:02:36) think that you can go to a junkyard and (00:02:39) take a shovel of junk and throw it in a (00:02:42) smid mixer and get a Rolex (00:02:45) watch. Now, the physicists like us to (00:02:48) believe that you can take a pile of junk (00:02:51) without a (00:02:52) designer, without an

(00:02:54) intent of an (00:02:56) overseer, take junk, nothing, and make (00:03:00) something more intricate than a Rolex (00:03:02) watch. nor could my eyeball that is a

(00:03:08) three-dimensional (00:03:10) stereoic with its own software. If the (00:03:14) brain could come from nothing, who put (00:03:17) the software in

(00:03:20) it? Who wrote the (00:03:22) program? Who put the DNA to make my eye (00:03:26) almost able to fix itself? And our (00:03:30) bodies were originally created so they (00:03:32) could heal themselves. Show me the (00:03:35) Chevrolet that does (00:03:37) that. Or do I want to talk about my real (00:03:40) friend Bill Gates with his software that

(00:03:42) can't fix (00:03:44) itself? If evolution could produce the (00:03:48) body, the question could be who put the (00:03:52) software on the main frame and the main (00:03:56) frame didn't build itself. I build (00:03:58) computers or used to had a at a factory (00:04:00) building synthesizers and Vancouvering (00:04:02) interactive pianos and some of you

(00:04:04) studied and know my background. How many (00:04:06) of you have my my teaching literature in (00:04:08) your life and in your home maybe? Thank (00:04:11) you. Thank you for the bravery of coming (00:04:14) back. Thank you for the confidence to (00:04:16) try it one more (00:04:18) time. I'm here to talk about frequency. (00:04:22) The frequency of quantum

(00:04:25) energy that is the small particles that (00:04:28) God made that (00:04:31) interact for our (00:04:34) entrepreneurship, for our (00:04:36) wealth, and for our (00:04:39) creativity. I don't want to shock you (00:04:42) by disturbing (00:04:44) you, but your creativity is not

(00:04:48) yours. So get over it. (00:04:52) You don't do (00:04:53) it. Oh, you have a creative (00:04:56) capacity. I am a creative person, but I (00:04:59) am more a visionary than a creative (00:05:01) person because I see that which is not (00:05:05) and have the courage by the Holy Spirit (00:05:08) to call it as though it is. And the Holy

(00:05:11) Spirit fills in the blanks. And it's not (00:05:13) only a hot (00:05:16) flash. Often we think of our creativity (00:05:19) as a hot (00:05:21) flash. Something happens and you got (00:05:23) this marvelous (00:05:25) vision. And I recognize that it has to (00:05:28) be outside of time. So it might not be

(00:05:32) minutes. But if you don't understand (00:05:34) that the vision can be replayed and you (00:05:37) can go back to its source and get the (00:05:40) rest of the vision, you are likely to (00:05:43) miss the point of the vision. Because in (00:05:46) the vision is the pro- (00:05:49) vision. And how often has God showed you (00:05:52) something to do and in your spirit, you

(00:05:54) knew it was (00:05:55) important. And you said to yourself with (00:05:58) a self-imposed limit, I can't afford it. (00:06:02) I don't have the (00:06:04) money. I can't do

that for my children (00:06:06) because we don't have the (00:06:08) resources. Or a ministry that is limited (00:06:11) by finances. And you don't recognize

(00:06:15) that in the vision, God has already put (00:06:18) the (00:06:20) provision. I'm here to announce the (00:06:22) money finds the (00:06:24) vision. You articulate the vision and (00:06:26) the money's on its (00:06:28) way. You can't stop the money when you (00:06:31) can articulate the vision because in it

(00:06:34) is the pro. Oh, you somebody's taking a (00:06:37) quantum leap right now. That's waking (00:06:40) somebody up. (00:06:42) You are not broke and he isn't either. (00:06:46) Our problem is we've listened to our (00:06:50) noise. I said that the other day to (00:06:52) somebody at my table and they said, (00:06:53) "Well, what is noise?" I said, "Your

(00:06:56) creativity can be your (00:06:58) noise." So wrapped up in you that you (00:07:03) only see what your limit will (00:07:06) allow. when in fact your limit should (00:07:09) be the Holy (00:07:11) Spirit who Jesus said to the disciples (00:07:15) who he had a problem with the problem (00:07:18) that Lance Wallnau has often and I

(00:07:20) occasionally have when I try to talk (00:07:22) about the kingdom and they don't get (00:07:24) it and Jesus realized the disciples (00:07:27) weren't getting and he said I have (00:07:29) things to say to you and you don't (00:07:32) comprehend if he'd have been here today (00:07:34) he'd have said your pentium isn't got (00:07:36) enough bandwidth

(00:07:37) with your computer is limited in its (00:07:40) resource. The resolution of your vision (00:07:43) is way too (00:07:45) coarse. Go back to the vision and let (00:07:47) him birth it again and again. See, your (00:07:50) creativity comes through (00:07:53) you from the Holy Spirit. That's where (00:07:56) tomorrow is. But for me to talk about

(00:07:59) where tomorrow is and seeing your vision (00:08:01) and seeing your (00:08:03) future, I like to get just a little (00:08:05) practical. and say, "Well, where is my (00:08:08) past? If I can understand something from (00:08:11) my past, could I understand more about (00:08:14) my (00:08:15) future?" As a physicist and an inventor,

(00:08:18) I know that my past got (00:08:22) recorded. You don't know (00:08:24) that maybe, but this wall and this (00:08:29) post has heard the first introduction of (00:08:31) this room when the (00:08:35) builders gave the title to this hotel to (00:08:38) Jim Baker that's in this wall in this (00:08:42) post. Maybe it's been replaced since

(00:08:45) then. I don't think so. (00:08:47) The brick of your home has known and has (00:08:49) listened and does have an awareness of (00:08:52) information in the house, in the (00:08:55) business. Forgive me, girls and ladies. (00:08:57) It's in your ring and your (00:08:59) watch. The past has been recorded. (00:09:03) Matter has

(00:09:07) memory. I'm not a new age guru and I (00:09:11) would prefer that no one would ever (00:09:12) refer to me that way. (00:09:16) I'm the oldfashioned (00:09:18) guy. I believe in a God and a creator (00:09:21) and a father that wanted a family. And (00:09:24) God Jehovah wanted his family that he (00:09:27) could love and have fellowship with

(00:09:29) throughout (00:09:30) eternity. And sin entered that wrong (00:09:33) picture. It was a right picture, but sin (00:09:36) entered it entered it. And Satan, who (00:09:38) had fallen, caused the problem for (00:09:42) mankind. and that Jesus had to come as (00:09:45) our savior. This is not new age (00:09:49) nonsense. New age says you are

(00:09:52) God. All the power is in (00:09:55) you. Trust your creativity. And much of (00:09:58) our modern world is based on that (00:10:01) distorted creativity. Particularly our (00:10:03) young musicians and our young artists (00:10:06) and our young creative minds have been (00:10:09) told they are God. So what do they do? (00:10:11) they develop something that they begin

(00:10:13) to worship. What do you think a rock (00:10:15) concert (00:10:16) is? What do you think the festivals that (00:10:19) celebrate the movies are? It's a form of (00:10:22) worship where we're worshiping the man (00:10:25) instead of the (00:10:26) creator. And we're saying that the (00:10:28) creativity is from the man and it's in

(00:10:32) you. I don't want to shock you, but you (00:10:35) are your you are you, but you are not (00:10:39) yours. get that you are you. You're an (00:10:42) individual. You have gifts and you have (00:10:44) potentials, but you are not yours. And (00:10:47) until you find out that you are his a (00:10:51) son of the high living God and that (00:10:53) through Jesus Christ the sin issue can

(00:10:56) be taken away and that all the sin and (00:10:59) all the bad memory in your life, that is (00:11:01) a salt (00:11:02) crystal. I can load that salt crystal (00:11:05) with my words. As a matter of fact, I (00:11:08) can put a laser on that salt crystal. In (00:11:12) my words, can go into the crystal. That (00:11:15) crystal happens to be ion salt. I can

(00:11:18) charge those ions with the energy of (00:11:22) coherent (00:11:23) light with longitudinal waves that carry (00:11:27) my intent and my voice and my image. (00:11:32) The same way your cell phone takes (00:11:34) photons in, kicks electrons out, the (00:11:39) modulated electrons get stored on a (00:11:41) stick that's made out of

(00:11:45) crystals. And the photos that are now in (00:11:48) your phone. Isn't that interesting? I (00:11:50) thought those were two different (00:11:51) inventions. Kodak had one and Thomas (00:11:54) Edison had a photograph and Alexander (00:11:57) Graham Bell gave us a telephone. Now we (00:12:00) got all that in one chip. (00:12:02) And our kids spend their lives talking

(00:12:04) to that (00:12:08) chip. Matter has (00:12:11) memory. Everything in your life has (00:12:14) recorded everything that's been done (00:12:15) around everything. Your car windshield (00:12:18) knows what happened back there when you (00:12:20) cut that guy off at the (00:12:23) light. Your house is full of who you are

(00:12:27) and what you have done, what you have (00:12:29) thought. How do you think a curse can (00:12:33) reside? And how do you think a blessing (00:12:35) can be passed on to a place? You (00:12:38) remember the Old Testament, they did not (00:12:41) put blood on the (00:12:43) baby. They put blood on the post of the (00:12:47) portal, the doorway. They protected not

(00:12:51) the baby, but they protected the place (00:12:54) that evil couldn't get in because the (00:12:56) portal had been blessed with the blood. (00:13:00) I'm still talking about my (00:13:02) savior who blessed all the portals of my (00:13:06) life and gave me the potential that all (00:13:09) the evil, all the sin, all of Satan's (00:13:12) lies could be stopped by his

(00:13:15) blood. And I have the authority. I am (00:13:18) the bride. And when my bride became my (00:13:21) bride, she was a (00:13:23) child. She's shaking her (00:13:26) head. She was 17 years old and she got (00:13:29) the name Vancouvering. Now she had my (00:13:32) name. She took my name to my bank and (00:13:36) had my

(00:13:37) authority and she could get my (00:13:43) \$14. You are a child of the living God. (00:13:47) You are a son of the living (00:13:50) God. You have his name for your (00:13:53) authority and you have all of his (00:13:56) assets for your (00:13:59) provision. So, you're not broke. You (00:14:02) don't have to worry about your limits

(00:14:03) because your limits are (00:14:06) diminishing. Of course, there's another (00:14:08) major problem we have. Not only did our (00:14:10) past get recorded, but we still have an (00:14:14) enemy. And we know who that enemy is. (00:14:16) He's here to kill, steal, and destroy. (00:14:19) And I have two words for him. I use them (00:14:21) this morning. I like to talk about these

(00:14:23) two words. I like to shout them in his (00:14:26) face. Satan, you're dismissed (00:14:31) in Jesus name. (00:14:33) That's your key to turning him off and (00:14:37) out of your matter, out of your past, (00:14:41) out of your mind, out of your history, (00:14:45) out of your legacy, out of who you (00:14:48) really have

(00:14:49) been. Where is yesterday? It got (00:14:52) recorded. It can be cleansed. You can be (00:14:56) set free. The consequences of his sin (00:14:59) and evil and death and destruction could (00:15:01) include what happened in my (00:15:04) life. Few years ago, a successful (00:15:06) business. I like to talk about it (00:15:09) because God put money people in my life.

(00:15:12) I had a vision. They gave me provision (00:15:14) because they were God's men at God's (00:15:16) time at God's place. Our burn rate was (00:15:19) \$20,000 a day and we'd spent \$40 million (00:15:22) developing some prototype synthesizers. (00:15:25) They're called the Vancouvering (00:15:27) Interactive Piano. You can read all (00:15:28) about it on the internet. And then one

(00:15:31) day, bright and early in the morning, I (00:15:33) was ready to go to my office and direct (00:15:35) over a hundred (00:15:36) people. As an engineer and a marketing (00:15:39) specialist, we thought we were on top of (00:15:41) that industry. And we really were. And (00:15:44) my heart shut (00:15:45) off. I

(00:15:48) died. I told him this morning, I highly (00:15:50) recommend it to all my friends. (00:15:54) You will be altered if your heart shuts (00:15:56) off. Your life will be changed and (00:15:59) corrected if your heart shuts off. (00:16:01) Fortunately, I turned back (00:16:04) on and then it shut off (00:16:07) again and then off and then on. Now,

(00:16:10) about the fourth or fifth time that (00:16:11) happened, you can believe that I had (00:16:13) some very upset investors. (00:16:17) They were very (00:16:19) concerned about my future and the goals (00:16:23) we had to sell hundreds of millions of (00:16:26) dollars worth of these synthesizers all (00:16:27) over the world. And they sent me to a

(00:16:30) doctor in New York and I was on the (00:16:33) plane ready to go. And many of you have (00:16:34) heard the story, but I have to tell it (00:16:37) again because there's some in here that (00:16:38) haven't heard it. And it's an important (00:16:41) key to your future to know that he is (00:16:44) Jesus is Lord over death. (00:16:47) over sickness, over

(00:16:50) limits. My bride has lived through the (00:16:52) most severe limits that a bride could (00:16:55) live through. Not only did I die (00:16:58) once, but I died the 10th time on an (00:17:01) airplane going to New York to get my (00:17:03) body fixed. We're on the airplane and I (00:17:07) had a stroke. Now, I didn't know the (00:17:10) stroke was coming, but I knew I was

(00:17:12) going to shut off. I could feel it (00:17:14) happening. And it happened nine times (00:17:16) and it was becoming a familiar feeling. (00:17:19) Didn't like it. Didn't want it. And the (00:17:21) lights were dimming and my heart was (00:17:23) slowing down and my blood pressure was (00:17:25) dropping and I shut off. Had a (00:17:29) stroke. Several minutes later, I woke

(00:17:32) up. I came too and I said to Becky, I (00:17:36) love to say it with a whisper. I said, (00:17:38) "Honey, did I scare you?" (00:17:42) And if you can see her face, she does it (00:17:44) every time. She's doing it right now. (00:17:46) She had that grin on her face and her (00:17:49) hand on my chest over my heart. And she (00:17:52) said to me, "Sweetheart, you can't scare

(00:17:55) me.” Of course, I'd shut off nine times. (00:17:57) How in the world can you scare the girl (00:17:58) that hasn't hasn't been scared yet? (00:18:01) Okay. You can't scare me. You're not (00:18:04) going anywhere. Your assignment isn't (00:18:06) done. And for your benefit, this day (00:18:10) hadn't happened. I hadn't come to tell (00:18:13) you that the frequencies of all your

(00:18:16) creativity, the frequencies of your (00:18:19) desire to be an entrepreneur, to build (00:18:21) the kingdom of God, those frequencies (00:18:25) for all of the wealth are yours. Those (00:18:30) sounds, those frequencies, those (00:18:33) potentials, those missing pieces, those (00:18:36) missing elements of your life are yours (00:18:39) to receive in Jesus' name. Right now in

(00:18:44) this session, you can be altered and (00:18:47) leave here without your fear, without (00:18:50) the missing piece, with a purpose (00:18:53) becoming (00:18:54) clearer. Now, the creativity that we (00:18:57) think is ours is our problem. (00:18:59) because it puts a noise in our spirit of (00:19:01) self-confidence that can be very faulty.

(00:19:05) And your ego likes to play tricks with (00:19:07) you and it becomes more important than (00:19:10) you should let it (00:19:11) be. Because it isn't what you do that's (00:19:14) even important. It's who you (00:19:17) are. And until you know who you are, you (00:19:21) can't know what you do best. And if you (00:19:24) don't know what you do best, the word

(00:19:26) godly entrepreneur is a misnomer for (00:19:29) you. You can't build the kingdom. You (00:19:31) won't even see the kingdom until you (00:19:34) understand that the Holy Spirit has to (00:19:37) be the flow through your (00:19:40) life. He knows your gifts. He can lead (00:19:43) you into all truth. Now, truth for me (00:19:46) has included

(00:19:47) inventions. I'm an inventor. I can't (00:19:50) help it. Okay? I go home and I got five (00:19:53) or six unfinished projects laying on my (00:19:56) workbench. I can parallel process. I (00:19:59) love to do two or three things at the (00:20:01) same time. And that's my (00:20:06) problem. I like to finish things. I do (00:20:09) that regularly. Enough to get 600

(00:20:12) protected patented concepts. (00:20:15) 636. I'm not really counting them (00:20:18) anymore, but I'm having more fun than (00:20:20) I've ever had in my life. I showed up (00:20:23) here the other day and the first thing (00:20:24) that happened to me, I wasn't even (00:20:26) dressed hardly. I'm putting my shirt on (00:20:28) up on the third floor and John calls my

(00:20:30) office. I didn't even know John. I (00:20:32) didn't know who he was. Didn't know (00:20:34) where he was. He calls me in my room. (00:20:37) And he said to high school called, (00:20:39) “Where is the principal? She's in here (00:20:41) someplace. Where is she? Help (00:20:43) me.” Oh, there they are. (00:20:48) She had said, “Send me somebody who's

(00:20:52) dynamic.” And you know what Bruce (00:20:54) thought? Said, “Well, I'll send (00:20:57) David.” So, they called for me and I (00:20:59) went and had the time of my life talking (00:21:03) to those kids in your high school. And (00:21:05) it ended not with me pouring into them. (00:21:08) It ended with them praying for (00:21:10) me. I pee. I had my head down. They were

(00:21:14) all praying for me. And I (00:21:17) peeked. I lifted my head and opened my (00:21:19) eyes. And here's 15 kids, teenagers, (00:21:22) with their hands extended, laying hands (00:21:24) on me, praying in the spirit. And behind (00:21:26) them, 30 more. And behind them, 30 more. (00:21:29) And this whole high school is lined up (00:21:31) around me, praying input to

(00:21:36) me. I highly recommend that (00:21:41) experience. You get altered with those (00:21:43) kinds of events. (00:21:45) I know why she's got that smile on her (00:21:47) face. They do that for her, (00:21:49) too. Who are these kids? They're not (00:21:52) kids. Oh, they're students, but they're (00:21:54) not students. They've already learned.

(00:21:57) Their assignment is to pour it (00:22:00) out. My cup runth over. David said, (00:22:04) “Yay, though I walk through the valley (00:22:06) of the shadow of death, my wife cup runs (00:22:09) over in my life. You can't scare me. (00:22:13) I can't be stopped. Yeah, I could be (00:22:15) stopped, but the Holy Spirit guides (00:22:18) those around me. I can't be stopped. I

(00:22:22) can't run out of (00:22:25) resources. What is God doing in your (00:22:27) life? He's surrounding you with a (00:22:29) convergence of (00:22:31) input. How important it is to recognize (00:22:34) that and to call that what it is. That's (00:22:38) God multiplying you times someone else. (00:22:42) That's how it

(00:22:44) works. See, you are you, but you are not (00:22:47) yours. And you can put a thousand to (00:22:49) flight. The word says that I can put a (00:22:52) thousand to fight. I'm good. I can do a (00:22:53) thousand, but with you, I can do 10,000. (00:22:56) And when she joins us, we made it (00:22:58) 100,000. And then we get this one to (00:23:00) agree with us in unity and with unity of

(00:23:02) prayer. Now, we had a thousand, 10,000, (00:23:05) 100 thou, a million, got 10 million, 100 (00:23:07) million, we got a billion. And I'm not (00:23:08) off the front row (00:23:10) yet. and I can put a billion to flight. (00:23:14) Imagine what the kingdom of God can do (00:23:16) for our government when we get our act (00:23:19) together and we understand the challenge

(00:23:22) and we learn how to call on God and you (00:23:26) get those kids in that high school (00:23:28) praying for our city and our (00:23:31) government's (00:23:32) destiny. Oh, we got economic problems. (00:23:34) We can read about them. Few of us can (00:23:37) understand them. I'm not sure I know (00:23:39) what's going on with the

(00:23:40) G20. I think they're doing something to (00:23:43) that \$20 bill in my pocket. I really (00:23:44) believe (00:23:47) that it's the same size, but it doesn't (00:23:50) do what it used to (00:23:52) do. Something's going on here. (00:23:55) And when we band together and understand (00:23:58) that all the value, all of our value,

(00:24:02) all of our savings, all of our (00:24:03) potential, all of our earnings, all of (00:24:05) our potential profit centers are in his (00:24:09) hands. He shall supply all my (00:24:13) needs and I tap into his (00:24:17) authority. My future is altered. So what (00:24:21) I am saying to you about quantum physics (00:24:24) carrying forward into your future.

(00:24:27) Somebody asked me what is quant physics (00:24:30) mean? Quant means the very very small (00:24:32) the subatomic particles. Newtonian (00:24:35) physics was when he could deal with (00:24:36) apples falling out of apple trees and (00:24:39) measure gravity's way. That was (00:24:42) Newtonian. Quantum physics is when we (00:24:44) start looking at this very small.

(00:24:47) And the very small operates quite (00:24:49) different than the very (00:24:51) big. So quantum physics is the energy (00:24:55) that's in the very very small. Some (00:24:59) things about that you might not know. (00:25:01) You're reflecting. You're seeing the (00:25:04) reflected light off from me. Pretty (00:25:07) necktie, don't you think? Pretty suit,

(00:25:09) don't you think? Somebody looked at me (00:25:11) today and said, "I didn't recognize you. (00:25:13) Thought you you were your son, Dr. Joe (00:25:16) Vancouver." And you see them on TV all (00:25:17) the time. God's news behind the news. (00:25:19) That's my son. Well, today I look like (00:25:24) son. The photons look reflect off from (00:25:28) me and you see the reflected photon on

(00:25:31) the back side of your eyeball. But you (00:25:34) can look at a photon and you can call it (00:25:37) a (00:25:39) wave. Or you could take that same set of (00:25:42) photons and call them particles. (00:25:45) And something fascinating (00:25:47) happens. They become what you observe. (00:25:51) Let me explain this. We'll put a plate

(00:25:54) up that's got two slits in it. We'll put (00:25:57) a detector behind the slits and we'll (00:25:59) shine a laser or reflected sunlight (00:26:02) through prisms and mirrors or a (00:26:04) flashlight or a candle. Doesn't make any (00:26:06) difference. The photons of light move (00:26:09) through the double slits. And if you (00:26:12) observe the reflection of that on the

(00:26:16) back side of the double slits on a (00:26:18) sensor that can be hooked to my (00:26:21) computer, the photons, and I say to you, (00:26:25) I want you to observe them as (00:26:27) particles because we know photons are (00:26:30) particles. and you observe them as (00:26:33) particles. They become a shotgun blast (00:26:37) through the two slits on the sensitive

(00:26:40) plate hooked up to the computer and it (00:26:43) looks like a shotgun blast of random (00:26:45) particles. I don't change the light. I (00:26:48) don't change the slits. I don't change (00:26:51) the computer software. I ask you to call (00:26:54) them (00:26:55) waves. and you observe them as waves (00:26:58) through the slits onto the detector onto

(00:27:01) the screen and suddenly before your eyes (00:27:04) the particles become rings of light and (00:27:08) dark (00:27:09) waves show up from the particles. And (00:27:13) you might say to me, David, that can't (00:27:15) be. Well, and you don't understand (00:27:17) anything about modern physics because (00:27:19) you can go to your Google this afternoon

(00:27:21) or right now if you got it with you. You (00:27:24) do carry your Google around, don't you? (00:27:27) Go to double slit experiment, the (00:27:29) duality of light, and check me (00:27:32) out. What you (00:27:35) observe, you cause to be. Write it down. (00:27:39) Quote me. What you observe. Now, Jesus (00:27:42) knew

(00:27:43) this. He said, "Be careful what you say (00:27:45) to that mountain because you can get rid (00:27:47) of it. Careful what you say to that fig (00:27:50) tree. You can get rid of it. Careful how (00:27:53) you look at that woman. (00:27:55) The act of evil isn't only in the act. (00:27:59) It's in the act of observation. Be (00:28:02) careful how you look. He said, "So the

(00:28:06) principle of observation causes your (00:28:09) reality." Get that point in your spirit (00:28:13) because when you see what God sees, it (00:28:17) can be yours. (00:28:21) And when you say what the word says, you (00:28:24) cause by your observation and your (00:28:29) tongue that has life and (00:28:31) death. Doctor checks mom and mom's got

(00:28:35) what the doctor says in error is cancer. (00:28:38) He calls you and says she's got six (00:28:40) months. (00:28:42) The husband calls a (00:28:44) relative, tells the relative at 6 (00:28:48) months, and the curse is started maybe (00:28:52) by (00:28:53) error. Who causes the

(00:28:55) cancer? Whose observation did (00:28:58) it? Whose voice cursed her body? Careful (00:29:03) what you say. You're going to get it. (00:29:07) Careful what you see. You observe (00:29:10) particles and the cosmos is waiting for (00:29:13) your being in (00:29:16) domain. I say to my (00:29:18) workbench and to the pieces and the

(00:29:21) particles, I will build a (00:29:25) laser. I buy the parts that I can't (00:29:28) make. I make the parts that I can (00:29:31) make. And I have a laser. In this (00:29:35) instance, a plasma. I'm going to try to (00:29:37) tip it down. So the lights won't keep (00:29:39) you from seeing it. Can you see that it (00:29:43) is responding to my

(00:29:49) voice? It is voice (00:29:52) sensitive. In Jesus (00:29:56) name, I call you (00:29:59) healed. Put your antennas toward me this (00:30:02) whole (00:30:02) section. In Jesus name, my voice (00:30:06) electrically moving through space and (00:30:09) time, past time into your body, carrying

(00:30:16) not my virtue, no virtue in the light, (00:30:19) but the authority of the blood of Jesus (00:30:21) Christ for healing. I declare in his (00:30:24) name, with his authority, you are healed (00:30:28) in Jesus name. I say to this section, (00:30:31) put your antennas (00:30:34) out. Now, do something that sounds very (00:30:37) silly. Put your tongue against the tip

(00:30:40) of a couple of your fingers and you will (00:30:42) make better (00:30:44) contact. Now, somebody in here is going (00:30:46) to say, "This guy's into (00:30:47) witchcraft." This has to be new age (00:30:51) nonsense. This is measurable 100 feet (00:30:54) out. And right now, my voice is being (00:30:58) electrified. So is that camera and

(00:31:01) blessed in Jesus' name and anybody who (00:31:04) sees the picture will get the blessing (00:31:06) in Jesus' name. I'm absolutely sure. And (00:31:10) we've got doctors testing this. And when (00:31:12) I say doctors, Dr. Thirstston, would you (00:31:14) stand up? This is my personal medical (00:31:18) doctor. He follows me around because I (00:31:20) need all the help I can

(00:31:23) get. And he knows that I am speaking (00:31:26) through a electrical plasma of a Tesla (00:31:28) coil into the human body. And we have (00:31:32) evidence that this gets into the body. (00:31:36) It can be measured. It's a longitudinal (00:31:38) wave. Write it down. Did you Did you (00:31:42) touch your tip your tip your tongue to (00:31:43) your fingers? Do it again. There you go.

(00:31:47) I call him healed. I call every (00:31:50) illness, every disease in his body, call (00:31:54) the frequencies corrected by the (00:31:56) authority of the blood of Jesus Christ. (00:31:57) Come on, church over here on this side. (00:32:00) You say, "David, what's going on?" Well, (00:32:02) I need to get that little girl in here (00:32:04) that was in our meeting upstairs a

(00:32:06) little while ago, your assistant, by the (00:32:08) way. Is that correct, (00:32:09) John? She sat about 30 feet or 25 feet (00:32:13) from me. Two and a half hours later, (00:32:17) she's telling us, "I could still feel (00:32:19) the electrical (00:32:21) current." She didn't have good words for (00:32:23) it. She didn't know what she was

(00:32:24) feeling. But this plasma projector is (00:32:27) carrying information into your (00:32:32) anatomy. I think this can change (00:32:35) lives. There's no magic in it. There's (00:32:38) no mystery in it. Oh, you might not (00:32:39) understand it, but that can't change any (00:32:41) of the facts. (00:32:43) say, "Well, I don't get it." You don't

(00:32:44) have to get (00:32:46) it. It's longitudinal waves carried (00:32:49) through a Tesla coil modulated by my (00:32:52) voice into your body in Jesus (00:32:57) name. Now, you say, "Well, that that all (00:33:00) looks good, Dave. That all sounds (00:33:02) fun, but how do I know all that (00:33:06) happens?" You have testimonies of people

(00:33:08) in the room today. I'm not going to ask (00:33:10) them to stand or come to a microphone, (00:33:12) but wave your hand at (00:33:13) us. Those that have done it, they've (00:33:16) used this. They have found healing. They (00:33:19) have found health. They have found (00:33:21) correction of vibrations into their (00:33:23) body. Your body is made up of 31

(00:33:26) elements of the 103 periodic table of (00:33:29) elements. What am I trying to say? Your (00:33:33) body is frequency. That's the subject. (00:33:36) Some of these tools can help your body (00:33:38) get rid of wrong frequency. I've spoken (00:33:41) to you to change your life, intending (00:33:43) that to happen. And I'd like you to (00:33:45) close this session by repeating after

(00:33:47) me. And if you would stand, I'm going to (00:33:49) ask you to (00:33:50) connect in between the rows. Try to hook (00:33:53) up. Something happens when you put the (00:33:55) circuit together. And we're asking you (00:33:58) to hook up. The energy can flow. (00:34:01) Spiritual forces flow when you lay hands (00:34:04) on somebody according to the

(00:34:06) scriptures. And I'd like you to repeat (00:34:08) after me. Father God, Father God, in (00:34:11) Jesus name, in Jesus name, I declare I (00:34:14) declare my body healed. My body healed I (00:34:17) receive I receive by the Holy Spirit by (00:34:20) the Holy Spirit. The information the (00:34:22) information that can change my life. (00:34:24) that can change my life. I receive I

(00:34:27) receive your voice. your voice. Speak (00:34:29) into me. speak to me. Show me my (00:34:32) assignment. Show me my assignment. Show (00:34:34) me how to correct. Show me how to And I (00:34:36) will move. I will move. As I am led by (00:34:39) your spirit. As I am led by your spirit. (00:34:41) In Jesus name. In Jesus name. Satan. (00:34:45) Satan. Dismissed. Dismissed. In Jesus

(00:34:48) name. In Jesus name. And the church said (00:34:51) amen and amen.

Quantum Healing — David Van Koevering (intervjuad av Patricia King)

(00:00:07) [Music] (00:00:30) Welcome to Everlasting Love. My name is (00:00:32) Patricia King. You're going to meet a (00:00:34) man today who who died. His heart (00:00:37) stopped 12 times. He is a testimony of (00:00:41) resurrection. He's a quantum physicist, (00:00:44) a scientist, an inventor, and it's Dr. (00:00:47) David Vancouvering. It's so wonderful to

(00:00:50) have you with us today. Thank you, (00:00:51) Patricia. Oh, I tell you when I was (00:00:53) reading your testimony and hearing from (00:00:55) you even over lunch hour some of the (00:00:57) insights you have, I was just blown (00:00:59) away. Thank you. And you shared with me (00:01:01) that you actually from age was age 12 (00:01:04) that you started inventing. Yes. I my

(00:01:07) father was an entertainer and he was a (00:01:09) master musician and I started out with (00:01:12) musical instruments and started (00:01:13) repairing musical instruments and (00:01:15) quickly discovered that I was living in (00:01:18) the era of the 1940s of course and 40s (00:01:21) it was all vacuum tubes. Musical (00:01:23) instruments were beginning to use vacuum

(00:01:25) tubes. There was an instrument that you (00:01:27) could play without touching it. You (00:01:29) could wave your hands over it. It's (00:01:30) called a Victor theramin. And from that (00:01:33) instrument forward, technology has (00:01:36) always been easy for me. And as a (00:01:38) musician, I started playing many musical (00:01:40) instruments. By 12, I was playing 27.

(00:01:43) Wow. Dad was using me in his show. Then (00:01:46) in when when I was 10 years old, Dad got (00:01:49) saved and his show changed over two or (00:01:51) three years from being an entertainment (00:01:54) show to be an an evangelistic show. And (00:01:57) it really wasn't a show. It was his (00:01:59) testimony and it was a witness. And um (00:02:02) the 150th psalm has always been

(00:02:04) important to me. Wow. The psalm about (00:02:06) all the instruments that make (00:02:08) vibrations, high symbols, loud symbols, (00:02:11) all of the instruments. And we're going (00:02:13) to host an entire program about worship, (00:02:16) music, sound, because you have some (00:02:17) phenomenal insights into that. Yes. And (00:02:20) I know that you're a man who moves in

(00:02:21) revelation from the Lord. That's (00:02:23) exciting. But uh you have a number of (00:02:25) patents also because of inventions that (00:02:28) that you have been blessed with by the (00:02:30) Lord. I think that all creativity can (00:02:33) only come from the Holy Spirit. And that (00:02:35) means creativity that's in the secular (00:02:38) world. They don't know what to call it.

(00:02:40) They may be even a fallen psalmist and (00:02:43) they call themselves an entertainer when (00:02:45) in fact they were given the gift of (00:02:47) worship and praise and they're living (00:02:49) below their gift. Right? So I think all (00:02:51) creativity can only come from the Holy (00:02:54) Spirit. Amen. And inventions that way. (00:02:57) Right. and I have been blessed to

(00:02:58) receive (00:03:00) 636 concepts that we've patented and put (00:03:03) in a portfolio. Many of them were (00:03:05) related to an instrument that we call (00:03:07) the digital Vancouvering interactive (00:03:10) piano. Right. Before that, I'd worked

(00:03:12) with Dr. Bob Moog for many years. He was (00:03:14) the inventor of the first synthesizer.

(00:03:16) He and I worked together building the (00:03:18) performance synthesizers, the the (00:03:20) portable units that were in rock bands (00:03:23) all over the world. And it's been a (00:03:25) fascinating a revolutionary. You you (00:03:28) revolutionized really. I could see (00:03:30) things that were not and I could see (00:03:32) them clear enough that I could define

(00:03:34) how they should work and that has been (00:03:37) an amazing gift in and and talent. (00:03:40) Wonderful. At the same time, um I (00:03:42) consider that I've been blessed to have (00:03:45) great teams of of smart people around (00:03:47) me. Well, it's always good to surround (00:03:49) yourself. I like I like to hire smart (00:03:51) people and I can stand on their

(00:03:53) shoulders and but it's been an amazing (00:03:55) life. I'm 72 years old or will be in (00:03:58) April. And um I have more fun than I'm (00:04:01) supposed to. Oh, you're you are fun. And (00:04:03) your wife is fun, too. Well, we think (00:04:05) so. Today's program, I wanted to (00:04:07) highlight on the subject of quantum (00:04:10) healing. In fact, you've written a book

(00:04:12) on quantum healing and and there's some (00:04:14) really interesting testimonies and (00:04:17) scriptural principles and insights from (00:04:19) the Holy Spirit revelation that you've (00:04:21) received that's in this book that you (00:04:23) know people can order this book and and (00:04:25) get more information on it. But before (00:04:28) we go into your testimony and some more

(00:04:30) insights on quantum healing as a (00:04:31) subject, what is quantum? I know the (00:04:33) first time I heard I thought okay (00:04:35) quantum physics how is that different (00:04:37) from normal physics? It's like what (00:04:39) exactly is the quantum world? There is a (00:04:41) difference. Um Isaac Newton, Sir Isaac (00:04:44) Newton back hundreds of years ago gave

(00:04:46) us quantum or gave us physics and that (00:04:49) physics was natural physics. Around the (00:04:52) turn of the century, there were people (00:04:53) that were looking at very small (00:04:56) particles and very small elements, atoms (00:04:59) and subatomic particles. And that what (00:05:02) what what um Sir Isaac Newton gave us (00:05:04) was how the big stuff works, right? how

(00:05:07) the sun and the moon and gravity and how (00:05:09) orbits and we know that those principles (00:05:12) are God principles because they work. If (00:05:14) you drop that book, it will hit the (00:05:15) floor, right? It works 10 out of 10 (00:05:17) times. But when quantum physics became a (00:05:20) subject, Neilsbar and many others, (00:05:24) Schroinger and Heisen Heisenberg and

(00:05:26) many of the other men of around the turn (00:05:28) of the century were trying to define the (00:05:31) invisible world that is around us. (00:05:34) Right? There is a world between you and (00:05:37) I right now and between us and the (00:05:40) viewer right that is filled (00:05:44) now we think matter is the only thing (00:05:46) that we is matter that was that what we

(00:05:48) see you know the furniture and our (00:05:50) bodies and our clothes and stuff right (00:05:53) when in fact the invisible world is far (00:05:55) greater than the visible world we only (00:05:59) see 400 to 700 nanometers now that's a (00:06:04) billionth (00:06:04) of a of a meter. A nanometer is a very (00:06:08) very short wavelength and our eye can

(00:06:11) only see from 400 to 700 nanometers. (00:06:15) That's wavelength, right? The fact is is (00:06:18) that beyond that there's so much that we (00:06:21) cannot see between you and me today is a (00:06:25) whole set of ideas and set of realities (00:06:28) that are invisible. Wow. It takes a (00:06:30) radio receiver to hear all the radio (00:06:33) stations that are right between us.

(00:06:35) That's a good example. A radio is a good (00:06:37) example. Radio is a good example. (00:06:38) Television is higher bandwidth, right? (00:06:40) Computers are still higher bandwidth. (00:06:43) Yeah. And from gravity waves, the (00:06:45) longest wavelength, and we don't know (00:06:47) how long it is yet. So, the quantum (00:06:50) physicist and the physicist from Sir

(00:06:52) Isaac Newton still haven't got it very (00:06:54) well figured out. As a matter of fact, (00:06:56) of all the matter we see in the cosmos, (00:06:59) they say over 90% of it appears to be (00:07:02) missing because there's an orbit for (00:07:05) everything that the Hubble telescope has (00:07:07) seen. Wow. It's in an orbit. (00:07:09) There's not enough mass that we know

(00:07:11) about that we can measure that can hold (00:07:14) that many orbits. So, there's missing (00:07:17) matter because we can't see it. Yeah. So (00:07:20) there's a greater world that we can't (00:07:22) see than the world we can see. Ideas are (00:07:27) between us right now. And so the quantum (00:07:30) world would be the world that you cannot (00:07:31) see. You cannot see because it's very

(00:07:33) very small. Would like um you know like (00:07:37) I used to work in a lab and we would do (00:07:39) lab tests on bacteria stuff and you (00:07:42) could actually see the bacteria under (00:07:43) the microscope but you can't see it with (00:07:45) a naked eye. So would that be referred (00:07:48) to as quantum? Not yet. Not yet. The the (00:07:51) microbes that you would see in a in a in

(00:07:52) a in a microscope. An electron (00:07:55) microscope goes down to the smaller. If (00:07:57) we would say that that book or your ring (00:08:01) is matter, that's atoms. Below the atoms (00:08:04) are subatomic particles. Below the (00:08:07) subatomic

(00:08:08) particles there are super strings. And (00:08:11) the super strings or vortices, little

(00:08:13) round circles that are spinning that I (00:08:17) absolutely believe is true, are the (00:08:20) voice of God causing matter to be. Wow. (00:08:24) Super strings, that's the stuff of the (00:08:26) cosmos, (00:08:28) has become real by the voice of Yahweh, (00:08:32) allowing his glory to become physical. (00:08:36) Wow. So the periodic table of elements

(00:08:40) frequencies are the voice of God causing (00:08:44) matter to be your body is about 31 (00:08:47) frequencies and those vortices of that (00:08:52) vortis of a of a of a cyclone kind of a (00:08:56) of a of a function is a voice of God (00:09:01) functioning in this dimension. (00:09:04) Now, I'm believing for you, our viewers, (00:09:06) that you're going to get this by

(00:09:08) osmosis, by revelation from God. Because (00:09:10) I don't know about you, but this a (00:09:12) little bit over my head, okay? But it's (00:09:14) fascinating. Well, it's more than (00:09:15) fascinating. It's measurable. You can (00:09:17) take certain devices, as I said, you (00:09:20) could bring a computer in here and if it (00:09:22) has Wi-Fi, you could play the entire

(00:09:23) internet, right? That's right between (00:09:25) us. It's right here. It's in this. And (00:09:28) that's always been such a surprise, (00:09:30) isn't it, to understand how the computer (00:09:32) can work like that. Like I remember (00:09:33) thinking how how does this happen that (00:09:36) it can be put in one place and then (00:09:38) shown everywhere like how can that

(00:09:40) happen you know but of course you know (00:09:43) it's all part of what here's something (00:09:45) even more fascinating than that the (00:09:47) computer itself as your body is is made (00:09:50) up of these subatomic invisible (00:09:52) particles or we could call them (00:09:54) electrons right and electron is this (00:09:57) little mass that when when several are

(00:09:59) composed together it causes an atom to (00:10:01) be and we thought for a long time that (00:10:03) was the smallest substance there was and (00:10:06) now they now know that we have subatomic (00:10:08) particles. Now this is under the (00:10:10) category of quantum mechanics. But I I (00:10:15) reserve quantum mechanics for the cell (00:10:17) phone that works right for the computer

(00:10:19) that works right for the Wi-Fi and for (00:10:22) the evidence of a machine that can (00:10:24) function. Beyond the machine, we have a (00:10:26) lot of quantum theory, right? If you (00:10:28) visited my home and saw my library, (00:10:30) you'd find thousands of books of every (00:10:33) period in my lifetime. I was born in (00:10:35) 1940, and quantum physics had already

(00:10:38) been around for 40 years. And so I (00:10:40) started collecting very young in life (00:10:43) the different phases that quantum (00:10:45) theory, quantum electronics went (00:10:48) through, some of which has been proven, (00:10:51) some of which still isn't proven. And (00:10:53) there's a lot of things big missing (00:10:55) pieces we don't know. One of the things

(00:10:57) that's been fascinating for me is that (00:11:00) at a very young age I became a believer. (00:11:02) I became a Christian and the Bible (00:11:04) became important to me because I could (00:11:06) read things in the Bible that even (00:11:08) science and quantum electronics, (00:11:10) quantum physics couldn't quite explain. (00:11:13) Now I understand some of the mysteries

(00:11:17) that we read about in the scriptures (00:11:19) that's in the Bible that I believe we (00:11:22) can function in and know to be real. For (00:11:25) instance, if there is a bandwidth that (00:11:28) is the capacity of our thought, a (00:11:31) frequency like a radio or television or (00:11:33) Wi-Fi frequency that is the bandwidth of (00:11:36) our

(00:11:37) communication, is that at or above or (00:11:40) below the speed of (00:11:42) light? Now, Einstein gave us the (00:11:45) equation $E = MC^2$ and the C is the (00:11:48) constant speed of light. meaning nothing (00:11:51) can go faster than light until just (00:11:54) weeks (00:11:55) ago on the on the Swiss French border.

(00:12:00) And they've got this big super collider (00:12:02) called the Hadron and it's miles across. (00:12:05) It's the biggest machine man has ever (00:12:07) made. It's partly buried underground. (00:12:09) And they were taking particles and (00:12:11) throwing them into this magnetic circle (00:12:13) at high speeds, sending them down a (00:12:16) shaft 200 feet into the ground and 450

(00:12:19) miles under granite, the rock of Italy, (00:12:23) down 450 miles to another place in Italy (00:12:26) in another 200 foot shaft, 450 miles (00:12:29) apart. They've now proven and they've (00:12:32) demonstrated things can happen in our (00:12:35) real science in a physical dimension. (00:12:38) This dimension that we live in that can (00:12:40) go faster than light. Wow. And the

(00:12:42) question is, was Einstein wrong? And (00:12:45) those watching today on on the on the (00:12:47) telecast, they can go to their computer (00:12:50) and punch in faster than light. Was (00:12:54) Einstein wrong? And find out what the (00:12:56) real physics world is talking about. (00:12:58) Wow. They're saying something that I've (00:13:00) been saying for 15 years. Wow. That

(00:13:02) there are subatomic particles that move (00:13:04) faster than light. Prayer, right? (00:13:08) Healing. Knowing God's plan for your (00:13:11) life. Well, let let's talk about healing (00:13:14) for a moment because I want you to share (00:13:16) your testimony of I mean, you died. Your (00:13:19) heart stopped. No. 12 times. Not just (00:13:22) one time. 12 times. And after each time

(00:13:25) you were I mean if the heart stops (00:13:28) you're dead. And so you were actually (00:13:30) resurrected 12 times. Resurrected 12 (00:13:32) times. Yeah. So share with us your (00:13:33) testimony. Well, but I went to a doctor (00:13:35) in Nashville. I thought I had the flu (00:13:37) and while he's taking an X-ray of me, I (00:13:39) collapsed and he rushes out. Didn't

(00:13:42) think the X-ray had anything to do with (00:13:44) it. It didn't. Checked my pulse. I had (00:13:46) none. Put the stethoscope on my heart. (00:13:49) Could hear no heartbeat. (00:13:51) screamed to his assistant to call 911 (00:13:55) and I woke up several minutes later in (00:13:57) an ambulance on the way to the (00:13:59) hospital. Now, for those watching today,

(00:14:01) I highly recommend this to all my (00:14:03) friends. I highly recommend it to you. (00:14:06) When your heart shuts off and you come (00:14:10) back, everything is different. Your (00:14:14) mind, your memory, your thought (00:14:16) processes. Biggest thing that happened (00:14:18) to me was my priorities. I'd been a very (00:14:21) driven entrepreneur, a successful

(00:14:24) businessman. I'd invented this digital (00:14:26) piano that was the most advanced (00:14:28) technical musical instrument that's ever (00:14:30) been on the plan planet. And it was a (00:14:33) very expensive five-year project. But (00:14:35) when my heart shut out, shut off and he (00:14:39) came out to me and found that I had (00:14:40) died. I cold blue for him. And then came

(00:14:44) to he was the doctor was excited and (00:14:46) thrilled. joined us at the hospital and (00:14:50) was there to make sure that I was (00:14:52) getting all the right testing afterward (00:14:54) and then a few days I think it was a (00:14:56) couple of weeks the first the second (00:14:58) time that I shut off and it happened (00:15:00) successively over a short period of

(00:15:03) time and I say I recommend it because (00:15:06) not only was I altered everything around (00:15:09) me was altered my priorities my ability (00:15:13) to know my (00:15:15) consciousness I began to recog (00:15:17) recognized that there was something (00:15:19) bigger in my life than the function of a (00:15:22) business or the function of any

(00:15:24) relationship that I had with my (00:15:27) magnificent team, even my family. The (00:15:30) 10th time I shut off, I was on an (00:15:32) airplane going to New York. Had the (00:15:35) finest doctors in the world waiting for (00:15:37) me. When I got there, not only um were (00:15:41) they waiting, they were expecting (00:15:44) something to happen to me because now it

(00:15:47) was so repetitive, so close. I'd shut (00:15:49) off the 10th time on the airplane flying (00:15:51) to New York and my wife was seated next (00:15:53) to me and she saw that I had a stroke. (00:15:56) And she tells the story. She says that (00:15:58) my leg

pulled, my arm pulled, my face (00:16:01) pulled and she knew that I had died (00:16:04) because she felt my pulse and I had no

(00:16:06) pulse. And she never panicked. She never (00:16:09) hit the button to call the stewardist (00:16:11) and get me off that we hadn't taken off (00:16:13) yet. She knew that my assignment wasn't (00:16:16) finished. And that's what she told me. I (00:16:18) said to her, I said, "Her name is (00:16:20) Becky." And I said, "Becky, sweetheart, (00:16:22) did I scare you?" I couldn't talk. I

(00:16:24) could only whisper. I said, "Did I scare (00:16:27) you?" She had her hand on my chest and (00:16:29) she said, "No, you can't scare me. Your (00:16:33) assignment isn't finished." And when I (00:16:36) knew my assignment wasn't finished (00:16:37) because there was other things, (00:16:39) teaching, talking about quantum physics, (00:16:42) going into the world to tell my story

(00:16:45) and to do things that we've talked about (00:16:47) at lunch today that haven't yet been (00:16:48) been accomplished, inventions that (00:16:50) aren't complete, technologies that are (00:16:53) awaiting the final discovery. They (00:16:57) hadn't happened. So on that 10th time, (00:16:59) it was important. The 11th time happened (00:17:01) in the hospital. Scared the fire out of

(00:17:02) a bunch of doctors. And the 12th time I (00:17:05) passed all the way over. I could see, I (00:17:08) could walk, I could hear. Colors were so (00:17:12) so magnificent. So you actually crossed (00:17:15) over. Crossed over and entered into what (00:17:17) we would think of as heaven. I think (00:17:19) that it is a dimension very close to us. (00:17:22) And you know what? Right after this

(00:17:24) break, we're going to hear more detail (00:17:26) about that. More detail about passing (00:17:28) over. Phil Mason's book, Quantum Glory, (00:17:31) reveals the realm of unseen subatomic (00:17:34) particles, scientific evidence of (00:17:36) biblical truth. (00:18:31) Okay, tell me about the crossing over. (00:18:34) Well, the crossing over, my (00:18:35) consciousness seemed to go up. I (00:18:38) couldn't ask a question because by the (00:18:40) time I could get it framed, the answer

(00:18:42) was already there. Colors and ideas were (00:18:45) very vivid. I could see in an imaginary (00:18:48) state things that I knew were real (00:18:51) here and they were real there. It wasn't (00:18:54) my imagination only, but in an (00:18:57) imagination state, I could see finished (00:19:00) things that had never yet been finished. (00:19:03) I could see ideas about invention and

(00:19:06) playing back memory. I believe matter (00:19:09) has memory. I think your ring is (00:19:11) recording. I think that Joshua said, (00:19:13) "This stone has heard and it will be a (00:19:16) witness against us." Yeshua himself in (00:19:19) Luke talks about the stones playing (00:19:22) back, the rocks crying out. And when I (00:19:25) was there, things were so vivid that I

(00:19:28) believe they could be made real here. (00:19:31) But the amazing thing is I thought I (00:19:33) could understand how they could be made (00:19:35) real. Later, Becky and I got into the (00:19:38) hands of some powerful doctors, and they (00:19:41) were interested in my story, my (00:19:43) testimony, the very fact that the (00:19:45) doctors can find nothing wrong with my

(00:19:46) heart, and I don't have any symptoms of (00:19:49) anything being wrong with my heart. And (00:19:51) so, I was truly healed actually. Yes. (00:19:54) Got a new heart in a healing service (00:19:56) where they laid hands on me and called (00:19:58) for a new heart. And since that time, (00:20:01) ideas about frequency and healing have (00:20:03) been important to me. Now frequency for

(00:20:06) music always had been the music industry (00:20:08) of synthesis had been what I my career (00:20:10) was and now we have a device that the (00:20:13) Lord has helped me see and we build it (00:20:16) and it's a device you put on your wrist (00:20:18) is a strap that's a grounding strap like (00:20:21) you would use if you touched a computer (00:20:23) if you opened a computer and put your

(00:20:25) fingers on the circuit board right your (00:20:27) capacitance of your output of your body (00:20:30) will mess with the computer and the (00:20:33) computer will crash (00:20:34) if the capacitance of your body changes (00:20:37) the circuitry inside of a computer. So, (00:20:40) you got to be grounded, right? So, you (00:20:42) don't do damage to the inside of a

(00:20:44) computer. That grounding strap I've now (00:20:47) attached to a box that we plug in the (00:20:49) wall. Test the wall first to make sure (00:20:51) the socket's grounded. Plug it into the (00:20:54) wall. Put a strap on two people. It can (00:20:56) ground two people at one time, husband (00:20:58) and wife or two children or whatever. (00:21:00) And it grounds your body. And if your

(00:21:02) body is grounded, well, we could say (00:21:05) wrong frequency is disease and sickness. (00:21:08) Right frequency is wellness and health. (00:21:11) And so you've studied the right (00:21:13) frequencies, get people grounded to it (00:21:15) and grounded to the frequencies that (00:21:17) would be natural to the body and get rid (00:21:20) of the static that comes in from cell

(00:21:22) phones, microwaves, um transformers, (00:21:25) certain kinds of lighting, hogen (00:21:26) lighting, etc. And so now there's (00:21:28) thousands of these are out there now (00:21:30) grounding people. Awesome. And we're (00:21:32) finding that

nervous disorders and (00:21:34) things that are frequency related go (00:21:37) away. Wow. So, in other words, if your

(00:21:39) car runs out of gas, don't change the (00:21:42) tires. You got a gas problem. Well, if (00:21:45) you've got a frequency problem, fix the (00:21:47) frequency problem. Don't throw drugs at (00:21:49) it. Right now, I'm not mad at doctors. (00:21:51) Some of the best friends in the world (00:21:53) that I have are part of one of 17 doctor (00:21:56) groups that I work with. The point is is

(00:21:59) that if the body needs to be grounded, (00:22:01) wellness can be restored and certain (00:22:04) difficulties. You're going to talk about (00:22:06) these in the future, too. Yeah. And this (00:22:07) makes total sense is that because the (00:22:09) father created us, you know, with (00:22:11) certain frequencies because he said, (00:22:13) "Let there be light." So, there's sound

(00:22:14) and light. Yep. You know, and we're (00:22:16) we're created by the voice of God. (00:22:18) Obviously, there's alignment. Yeah. And (00:22:21) so, there's alignment there. So, when (00:22:23) you restore that alignment, healing can (00:22:25) come. And we know that. We know that you (00:22:27) have seen so many miracles. But also (00:22:30) what I noticed with you is that you have

(00:22:32) a spirit of faith. You have faith to see (00:22:35) people made well. And I love that it's (00:22:37) like this expectation in you that you (00:22:40) release faith in Jesus Christ and his (00:22:43) power to heal. What I'd like us to do (00:22:45) right now because I believe that there (00:22:46) is going to be miracles on this program (00:22:49) today. our viewers, if they have any

(00:22:51) sickness right now that they need God to (00:22:54) touch, they can get positioned right now (00:22:55) to receive prayer because I'm going to (00:22:57) ask you to pray for anyone who's (00:23:00) watching to be healed and to come into (00:23:02) alignment with God's frequency of (00:23:05) wholeness and health and thank you. (00:23:08) Could you do that? I would be glad to do

(00:23:10) that. The experience that Becky and I, (00:23:11) my wife and I have had is where we've (00:23:14) seen healing in our own bodies. And you (00:23:17) can see healing in your body today. The (00:23:20) word of God talks about how that we are (00:23:22) healed by his broken body and by the (00:23:25) shedding of his blood. The blood is very (00:23:27) important because through that we

(00:23:30) contact the healing of Jesus Christ. So (00:23:32) I say to those of you watching today and (00:23:35) I like to have people just put their (00:23:36) antenna forward. There's an energy that (00:23:39) comes out of our bodies when we touch or (00:23:41) we agree. I can put a thousand to (00:23:43) flight. If you stand in agreement, we (00:23:45) put 10,000 to flight. Well, here's the

(00:23:47) agreement. There's 10,000. You can make (00:23:49) it 100,000 right now by just agreeing. (00:23:52) Extend your hand. Now, there's no (00:23:54) mystical force that's happening. But (00:23:57) your faith and your intent reaches out (00:24:00) and connects in an invisible way. Just (00:24:03) like Wi-Fi, just like a cell phone. We (00:24:06) are connected in the name of Jesus. And

(00:24:08) I declare to you that if there's a (00:24:10) sickness in your body, I dismiss the (00:24:14) sickness in Jesus name. Amen. I call (00:24:16) that the faith that you have in Jesus (00:24:18) Christ would be released. That you would (00:24:21) say, "Thank you Lord for my healing. (00:24:24) Thank you Lord that my healing now is (00:24:26) over because healing is the results of

(00:24:30) being healed." You can thank him for (00:24:32) healing not for the sickness. You (00:24:35) dismiss the sickness, but accept your (00:24:37) healing in Jesus name. I'm sure there (00:24:40) are those right now that have had (00:24:41) difficulty with their mind, difficulty (00:24:43) with thinking. They've noticed now that (00:24:46) something in their memory isn't what it

(00:24:48) was a year ago or two years ago. So I (00:24:51) speak into your mind and say you are (00:24:53) healed in Jesus' name. May the (00:24:56) frequencies of thought, the frequencies (00:24:59) that you can receive by the Holy Spirit (00:25:02) for healing of your brain, of your mind, (00:25:04) you may just touch your head and say, (00:25:07) "Mind be restored in Jesus' name." And

(00:25:10) by your declaration and your visualizing (00:25:13) that you caused that to be your intent (00:25:17) is the greatest force you have. And (00:25:19) coupled your intent with the authority (00:25:21) of Jesus Christ, you can be healed right (00:25:24) there, right now. Some may have a heart (00:25:26) condition. Maybe you've had a problem of (00:25:28) of a heart that speeds up or slows down.

(00:25:32) I believe that Jesus can heal you. He's (00:25:34) not a respecter of persons. And he (00:25:37) healed me. He can heal you in Jesus' (00:25:39) name. I believe in miracles. I know that (00:25:42) Patricia believes in miracles. And you (00:25:45) can believe in your miracle right now by (00:25:47) saying in Jesus name, Jesus, Father, I (00:25:50) am healed. Father, I am healed. and I

(00:25:53) repent. I turn my life to Jesus Christ (00:25:57) and I want his Holy Spirit to take (00:25:59) charge of my life. You can speak health (00:26:02) to you and your family. You can enjoy (00:26:05) health. Becky and I now travel all over (00:26:08) the world. The doctors can't find (00:26:10) anything wrong with me. My heart is like (00:26:12) it's a brand new heart. They've checked

(00:26:15) it. They can find nothing wrong. And I (00:26:17) thank God for that because Becky and I (00:26:20) simply stood in agreement. Agreement is (00:26:23) where you say, "Satan dismissed, disease (00:26:28) dismissed. Father, may the blood of (00:26:30) Jesus

Christ cause healing to flow to (00:26:33) thousands of homes right now to (00:26:35) individuals that have their hand

(00:26:37) extended. Maybe they didn't extend their (00:26:39) hand, but the position isn't as (00:26:41) important, but by your hand extension, (00:26:44) you're saying, "I agree with you. I'm in (00:26:47) unity with you and you will be healed. (00:26:50) Now, there's literature that you're (00:26:52) going to hear about that you could have. (00:26:54) The book on quantum healing explains

(00:26:56) what the teaching was. That was from a (00:26:58) conference where I spoke for eight (00:26:59) hours. That's in the healing quantum (00:27:01) healing book. There's another book (00:27:03) quantum prayer that are those prayers (00:27:05) that's in this book repeated in quantum (00:27:07) prayers. You're going to hear how you (00:27:09) can get those. Thank you for agreeing

(00:27:11) with me today and I thank God for your (00:27:14) healing. Amen. In Jesus name. Amen. Phil (00:27:17) Mason's book, Quantum Glory, reveals the (00:27:20) realm of unseen subatomic particles, (00:27:23) scientific evidence of biblical truth. Quantum Healing — Dr Patricia Green

(00:00:00) today I want to teach on a very unique (00:00:02) subject called Quantum healing but (00:00:05) before I teach you on Quantum healing I (00:00:08) need to give you a little background on (00:00:10) quantum physics so what is quantum (00:00:13) physics quantum physics is the study of (00:00:15) the behavior of matter and energy that (00:00:19) are smaller than atoms so in other words

(00:00:22) it's a study of these small particles or (00:00:24) substances that we cannot see and these (00:00:27) small particles or substances do not (00:00:30) follow the laws of nature so in other (00:00:33) words in the law of physics it says (00:00:37) that when we throw an object up it'll (00:00:39) automatically come down because we have (00:00:41) the law of gravity but in quantum

(00:00:44) physics um these uh particles do not (00:00:47) follow the normal laws of (00:00:50) physics so in Quantum healing there are (00:00:53) four things that can create substance (00:00:57) and alter substance now when I talk (00:01:00) about substance you need to know what (00:01:02) I'm talking about so for example this (00:01:05) pen has substance it has a physical form

(00:01:08) and it's substance and my Bible has a (00:01:12) physical form and it has substance so (00:01:15) when I'm talking about substance I'm (00:01:16) talking about something with a physical (00:01:19) form so the four things that that can (00:01:22) create um substance and it can alter (00:01:26) substance are number one scripture the (00:01:29) word of of God number two our thoughts

(00:01:33) number three our spoken word and number (00:01:37) four our faith so our the scriptures our (00:01:42) spoken words our thoughts and our faith (00:01:47) have the ability to create matter to (00:01:49) create substance and to alter substance (00:01:54) it can also create and alter (00:01:58) DNA these four things can also create (00:02:02) new dendrites in the brain so what is a

(00:02:05) dendrite a dendrite is the a branch that (00:02:08) branches out from the neuron in the (00:02:10) brain and these dendrites transmit (00:02:14) information from the brain to the cells (00:02:17) in the body so if you can picture the (00:02:19) neuron as being a tree trunk and the (00:02:22) branches of the tree being the dendrites (00:02:25) that will give you a mental picture of

(00:02:27) what I'm talking about so when we learn (00:02:31) new things we create new dendrites or (00:02:34) new branches in our brain a powerful (00:02:38) Discovery was made that when we speak (00:02:41) words that our words actually create new (00:02:45) dendrites or new branches in our brains (00:02:49) so when we speak uplifting and loving (00:02:52) and healing words we create those

(00:02:55) dendrites in our brain and then those (00:02:58) dendrites send the message to our our (00:03:00) body uh for love and for healing and for (00:03:03) creativity but when we speak nasty and (00:03:06) hurtful and hateful words and words that (00:03:09) agree with sickness and disease we are (00:03:11) creating branches in our brain that are (00:03:14) going to create those very things so we

(00:03:18) can change our DNA uh through scriptures (00:03:23) through our words through our thoughts (00:03:25) and through our faith scientists are (00:03:28) finally catching up with this biblical (00:03:31) truth and they have proven that human (00:03:34) speech can dramatically alter a person's (00:03:37) DNA Dr Bruce Lipton who's a (00:03:40) world-renowned leader in cellular

(00:03:43) biology in quantum physics prove that (00:03:46) you can change your genes and that you (00:03:48) can alter cancer cells or any abnormal (00:03:52) cell and you can you can cause it to act (00:03:55) like a normal cell this was done by (00:03:58) creating a conscious channel of (00:04:01) communication with your DNA through your (00:04:04) spoken words and through your

(00:04:06) intentional thoughts so in other words (00:04:09) by focusing your thoughts on healing and (00:04:11) focusing your words on healing you can (00:04:14) literally change the DNA in your body (00:04:16) you can literally change the cancer (00:04:18) cells in your

body I want to quote this (00:04:21) is from an article that I was reading it (00:04:23) says this test subjects who were trained

(00:04:27) to generate focused feelings were able (00:04:29) to intentionally cause a change in (00:04:31) the shape of the (00:04:33) DNA negative emotions produced at will (00:04:37) cause two strands that comprise human (00:04:40) DNA to wind more tightly heart- centered (00:04:44) feelings of love and appreciation (00:04:47) generated by the research subject cause

(00:04:49) the DNA strands to unwind and to (00:04:52) exhibit positive changes in (00:04:56) just two minutes so literally what this (00:04:59) test study showed was that people that (00:05:01) directed their thoughts and their words (00:05:03) towards positive um and uplifting and (00:05:06) healing um in their bodies and they (00:05:08) directed that towards their DNA in just

(00:05:10) two minutes it changed the structure of (00:05:13) their (00:05:16) DNA so I want to also now go to to (00:05:19) scripture that proves that that what (00:05:22) I've just spoken is true because I (00:05:24) always want to back things up with the (00:05:26) word of God you see Yeshua under Ood (00:05:30) that he could change substance with his

(00:05:33) thoughts with his words and through his (00:05:35) Faith and Action you see Yeshua created (00:05:39) matter when he multiplied the Loaves and (00:05:41) the fishes when he fed the 5,000 and (00:05:44) then again when he fed the 4,000 (00:05:46) scripture says that he looked up to (00:05:48) heaven he blessed the bread he broke it (00:05:51) and then he instructed the the disciples

(00:05:53) to pass out the bread so somewhere in (00:05:55) between blessing the bread and having (00:05:58) the disciples pass it out out there was (00:06:00) a multiplication of the Loaves and the (00:06:02) fishes so he actually created substance (00:06:06) okay with his words with his faith and (00:06:09) with his thoughts another scriptural (00:06:12) example was at the wedding of kaaa there

(00:06:16) they had run out of wine at the wedding (00:06:18) and um Mary came to to to Yeshua and (00:06:21) said they run out of wine and so Yeshua (00:06:24) instructed them to take the water pots (00:06:26) and to fill them with water and then he (00:06:29) instructed them to to to remove some of (00:06:31) the water and when they tasted it it had (00:06:33) changed the substance had changed into

(00:06:36) wine you see Yeshua used his knowledge (00:06:40) about the power of His thought and (00:06:42) intent to change the water into wine it (00:06:44) was his intent to provide the wine for (00:06:47) this uh for this wedding ceremony so our (00:06:51) thoughts have the power to create and (00:06:54) even change matter yes Yeshua also (00:06:58) changed the form of matter on the Sea of

(00:07:00) Galilee um he had been teaching and he (00:07:03) was tired and his disciples and him got (00:07:05) in a boat they were in the middle of the (00:07:07) Sea of Galilee when the winds began to (00:07:10) to rise and the waves began to start (00:07:12) crashing against the boat now the (00:07:14) disciples um became very fearful they (00:07:18) woke Jesus up and immediately Jesus

(00:07:22) rebuked the wind and then the waves uh (00:07:25) and they became still and so through his (00:07:28) spoken word and through his intent and (00:07:30) through his faith he was able to steal (00:07:33) the wind and to change the (00:07:36) water so we see that biblical accounts (00:07:39) attest to the fact um that matter can be (00:07:42) um can be changed through our spoken

(00:07:46) word another example is when Jesus and (00:07:49) his disciples were leaving Bethany it (00:07:52) says that Jesus was hungry and he and he (00:07:54) went over to a fig tree but it says in (00:07:57) Scripture that it was not the season for (00:08:00) figs and so he went over to check to see (00:08:02) if there was any figs and there was (00:08:04) there wasn't any and so Jesus said this

(00:08:06) let no one eat fruit from you ever again (00:08:10) then the next day as the disciples were (00:08:11) coming back into Bethany they passed (00:08:14) that very same fig tree and and Peter (00:08:16) explained and he said he said Rabbi look (00:08:18) he said that the tree that you cursed is (00:08:21) now dead it's withered away and um and (00:08:24) so Yeshua was was trying to teach them a

(00:08:27) principle the same principle that I'm (00:08:28) trying to teach you that that through (00:08:31) our words through our intents or our (00:08:34) thoughts and through our faith we can (00:08:36) literally change matter we can change (00:08:39) substance and so he really wanted to (00:08:41) show them that when he cursed that fig (00:08:43) tree that he had the ability to change

(00:08:45) matter but that they also had the (00:08:48) ability to change matter also and he and (00:08:51) he speaks of this in Matthew or excuse (00:08:53) me in Mark 11: 22- 24 when he says this (00:09:00) so Jesus answered and said to them have (00:09:03) faith in God for assuredly I say to you (00:09:06) whoever says to this mountain be removed (00:09:09) and be cast into the sea and does not

(00:09:11) doubt in his heart but believes that (00:09:14) those things he says will be done he (00:09:16) will have whatever he says therefore I (00:09:19) say to you whatever things you ask when (00:09:22) you pray believe that you receive them (00:09:25) and you will have them so Jesus was (00:09:28) teaching them that same principle that (00:09:30) through your thoughts through your words

(00:09:33) and through your faith you can have (00:09:35) those things that you are asking for in (00:09:39) prayer another time that that Jesus (00:09:42) exhibited these principles where he (00:09:45) literally changed the DNA of a man was (00:09:48) when the disciples

BL brought the man (00:09:51) that was born blind to him and they said (00:09:54) Rabbi who has sinned has did this man

(00:09:57) sin or did his parents sin that he was (00:10:00) born blind and and Jesus responded this (00:10:04) way to them he said neither this man nor (00:10:07) his parents sin but that the works of (00:10:10) God should be revealed in him and that (00:10:12) was in that was in John 9:3 so what (00:10:15) Yeshua did was he took his spit he mixed (00:10:18) it with some of the the soil on the

(00:10:20) ground he created a mud a mud pack and (00:10:23) he put it on the Man's eyes and then he (00:10:26) instructed the blind man to go to the (00:10:28) pool of salom to wash in the pool so we (00:10:31) see various things happening here that (00:10:33) actually changed the DNA in that (00:10:35) particular man first of all Jesus's (00:10:38) spoken word second of all his faith

(00:10:41) because he he he told the man to go wash (00:10:44) in the pool of salom and third of all it (00:10:47) was it's interesting that Jesus used the (00:10:49) the saliva from his mouth from the very (00:10:51) vessel which his words had spoken he (00:10:54) used that to to change the DNA in this (00:10:57) man but another thing that happened also (00:10:59) that activated this man's DNA to change

(00:11:02) was his Faith and Action when he (00:11:04) actually went to the pool he dipped in (00:11:06) and when he came out his sight was (00:11:09) restored so you see there is scriptural (00:11:13) proof that we do not have to accept our (00:11:16) genetic predispositions that we have (00:11:19) inherited from our parents and our (00:11:23) grandparents we can change these

(00:11:26) generational curses or these genetic pre (00:11:30) dispositions um through our words (00:11:32) through our thoughts through our faith (00:11:35) and by applying scripture to our (00:11:39) generational curses or (00:11:42) predispositions so first of all you need (00:11:44) to reject them in your (00:11:47) mind you you you cannot think upon those

(00:11:51) things that have been passed down you (00:11:53) have to reject them mentally and not (00:11:55) only that you have to reject them (00:11:57) verbally you have to say I I do not I do (00:12:00) not receive these in the name of Yeshua (00:12:03) so often I hear people say well my mom (00:12:06) had diabetes my dad had heart problems (00:12:10) and and and my grandparents had high

(00:12:12) blood pressure so I'll probably die from (00:12:14) one of those sicknesses or diseases and (00:12:17) by the profession of their words by the (00:12:20) profession of their mouths they are (00:12:22) opening or unlocking those those those (00:12:25) generational curses to be operating (00:12:28) within them we cannot we cannot do that (00:12:31) we really need to watch what we are

(00:12:34) speaking so remember your words have (00:12:38) power to create new DNA but your words (00:12:42) also have power to create disease and (00:12:46) sickness so what are you going to choose (00:12:49) are you going to choose life or death (00:12:52) Deuteronomy 30:9 to 2 says this I have set (00:12:58) life I have set before you life and (00:13:02) death blessing and cursing therefore

(00:13:05) choose life that both you and your (00:13:08) descendants may live that you may love (00:13:10) the Lord your God that you may obey his (00:13:13) voice that you may cling to him for he (00:13:16) is life and the length of your days so (00:13:19) we see there is power of life and death (00:13:22) in our tongue there's power of life and (00:13:25) death in our words and in our

(00:13:28) thoughts so some of you may be thinking (00:13:31) that Yeshua could change DNA that he (00:13:33) could create substance and that he could (00:13:35) alter substance because he was the son (00:13:37) of God that's not so Yeshua could change (00:13:41) DNA he he could create substance and he (00:13:44) could alter substance because he (00:13:46) understood the power of His Thoughts the

(00:13:49) power of His words and the power of his (00:13:52) faith and yes Yeshua had to have faith (00:13:55) in order to operate in signs wonders and (00:13:58) miracles and the the reason that he had (00:13:59) to have faith to operate in signs (00:14:01) wonders and miracles was because he was (00:14:03) trying to show us that we also would (00:14:06) need the same kind of faith that it was

(00:14:08) imparted by Holy Spirit for us to walk (00:14:11) in signs wonders and miracles to be able (00:14:13) to change DNA to be able to alter matter (00:14:16) matter and to be able to create (00:14:19) matter so Yeshua even prophesied about (00:14:22) this future generation of Born Again (00:14:25) Christians of Born Again Believers that (00:14:27) would be his disciples this is what he

(00:14:29) said about us he said this most (00:14:31) assuredly I say to you he who believes (00:14:34) in me the works that I do he will do (00:14:37) also and Greater Works than than these (00:14:40) he will do because I go to my father so (00:14:44) Yeshua said that we would do Greater (00:14:46) Works than he he did now do you believe (00:14:49) this you see that's where your faith

(00:14:51) comes in so now that you understand the (00:14:56) power of your words the power of your (00:14:58) thoughts and the power power of your (00:14:59) Faith and Action you have the power to (00:15:03) change disease to change dis disease and (00:15:06) sickness and to change pain in your own (00:15:08) body so I want you to start practicing (00:15:11) these principles on yourself begin to

(00:15:15) make a conscious effort to redirect your (00:15:18) thoughts so they reflect healing for (00:15:21) your body so instead of dwelling on the (00:15:24) pain instead of dwelling on the sickness (00:15:26) or the disease redirect your thought (00:15:29) to

Healing so in your mind tell the pain (00:15:32) to stop direct your thoughts to the area (00:15:35) in your body that needs healing and

(00:15:38) mentally speak to your body you are (00:15:40) healed in the name of Yeshua you are (00:15:42) healed you you speak in your mind I have (00:15:45) Divine health because that's what the (00:15:46) word of God promises make sure that the (00:15:50) words that you are confessing also line (00:15:53) up with what you are asking for because (00:15:56) if your words don't line up with what

(00:15:58) you're asking for for and your thoughts (00:16:00) don't line up with what you're asking (00:16:01) for guess what you're not going to get (00:16:04) it so you need to watch your words (00:16:06) listen to what you are telling people (00:16:09) about yourself are you saying well I (00:16:12) have this pain in my shoulder or I have (00:16:15) diabetes or I have this or I have this

(00:16:17) disease or I went to the doctor and I (00:16:19) was diagnosed with with Ms what are you (00:16:22) speaking about yourself you see just (00:16:24) because a doctor diagnoses with (00:16:26) diagnoses you with something doesn't (00:16:29) mean you have to accept it you can (00:16:32) mentally reject it and through your (00:16:34) words you can reject it and you can cast

(00:16:36) it out in the name of Jesus in the name (00:16:40) of (00:16:41) Yeshua now don't get me wrong symptoms (00:16:45) especially pain are very real so I'm not (00:16:48) telling you to go into denial that you (00:16:50) don't have pain that you don't have (00:16:52) symptoms because they are very real but (00:16:55) what I have just given you is the

(00:16:56) ability to be able to change your pain (00:16:59) to be able to change your disease to be (00:17:01) able to change your sickness you need to (00:17:04) activate your faith and don't doubt you (00:17:09) see faith is this let me let me I want (00:17:11) to read this to you and I'm going to (00:17:12) read it again so you you get it faith is (00:17:15) an unseen energy force that creates

(00:17:19) substance and words are the carrier of (00:17:22) that substance let me say it again faith (00:17:25) is an unseen energy force that creates (00:17:29) substance and the words are the carrier (00:17:31) of that substance so in other words the (00:17:33) vibration of your words carries causes (00:17:36) the substance to appear it carries it to (00:17:38) the substance to make it appear and we

(00:17:41) see this in scripture in Hebrews 11:1 (00:17:44) where it says now Faith is the substance (00:17:47) of things hoped for the evidence of (00:17:49) Things Not Seen so faith is a substance (00:17:55) Faith produces matter and faith can (00:17:58) change DNA even when you don't have the (00:18:01) evidence that it's changed yet but I (00:18:03) don't want you to give up when you're

(00:18:05) when you begin to use these biblical (00:18:07) principles even if you don't see results (00:18:10) right away so many people they say well (00:18:12) I tried it once and it didn't work (00:18:14) because that's where your faith comes in (00:18:16) you need to be persistent in in (00:18:19) redirecting your thoughts you need to be (00:18:20) persistent in making sure that your

(00:18:23) words are lining up with with healing (00:18:25) you need to be persistent in releasing (00:18:27) scriptures over yourself when it comes (00:18:29) to the healing of your body remember (00:18:32) that Faith produces the substance and (00:18:35) your words carry the substance to (00:18:37) whatever you're directing them to so (00:18:39) direct your faith to what you need in

(00:18:41) your body what whatever you need (00:18:42) whatever healing that you're asking for (00:18:45) then once the evidence of healing has (00:18:49) manifested that means your faith in your (00:18:51) words were (00:18:53) transformed into substance this is (00:18:57) quantum healing
